Ladies of Duluth!

A Carpet,

however worn, has a new lease of usefulness if it be cleaned carefully and well. This branch of our business, judging from last season's orders, has become very popular. We have modern appliances for doing this kind of work, and our men understand the trade. When you have occasion for our services, your only trouble need be to send your order by telephone 376, if convenient. We take up, clean, repair and re-lay carpets—return them to you almost as good as new. We guarantee our work and hold ourselves responsible for any damage.

FRANCE FEARS.

The French Capital Apprehensive of Coming Events and Fears the Worst.

A Demonstration of a very Serious Nature Expected on the 1st of May.

Evidence Against Ravachol Continues to Accumulate: He is Certain to be Executed.

PARIS, April 1.—Notwithstanding the anarchist charges, meetings are being nightly held in the Rue de Temple for the purpose of organizing the May day demonstration. The authorities believe that the false reports of anarchist outrages are being spread for the purpose of intensifying public apprehension. A rumor being prevalent on Thursday night that another explosion had taken place on Boulevard St. Germain. On investigation the whole story was found to be a hoax. The police wonder why such false information was spread about in so short a time and communicated to the very people who were in the best position to give it the widest publicity. Precisely the same circumstances were noticeable just two days previously, when the report ran that an explosion had occurred at the Credit Lyonnais; and that the 150 anarchists in Paris could have spread the information was communicated. The telephone played a prominent part in the propagation. The police are actively at work to discover the authors of the false reports.

The latest crime charged against Ravachol is robbing a church, although the police have not yet given the particulars of this sacrilege. This enlarges the list of his crimes to include dynamite outrages, murders, counterfeit robberies, grave plundering and sacrilege. Now so much evidence is being given up against the man that the police are asking whether it is creditable to the efficiency of the police that such a desperate criminal should have been so long in Paris.

Ravachol himself has apparently given up all hope of escaping the guillotine and seems inclined to glory in his crimes. His grave robberies were among the means of his crimes. It is said that he would watch for the funeral notices of wealthy people, find where they were interred, visit the grave at night and dig up the corpse and strip of any valuable articles that were left upon it. An active investigation of his character is in progress, and it is believed that when all is known it will startle the world. Ravachol is known to have large quantities of dynamite hidden in some place of which his accomplices, who betrayed him, are not aware. So far he has obstinately refused to reveal the hiding place.

THE STATE CONVENTION.

Delegates Instructed for Cleveland; The Silver Resolution.

ST. PAUL, April 1.—The delegates elected to the Chicago convention were as predicted yesterday. The following resolution, introduced by Morton S. Wilkinson, of Wells, was passed without opposition:

Resolved, That the delegates selected by this convention are instructed to vote as a unit for and to engage every manly endeavor to elect Grover Cleveland as the candidate of the democratic party for president of the United States.

The silver resolution passed was a peculiar one and covered both sides of the case. It was as follows:

We hold in accordance with the traditional policy of our party, to the use of both gold and silver and that the coinage function of the government is to examine the relative values of metals and coinage as established by the market world, and, if there has been a sufficient fluctuation in the value of either to make the existing ratios unequal, then to readjust the ratios so that the number of grains of either metal in the unit coinage, the dollar, shall be equivalent in value and then permit, free, unrestricted coinage of both metals. We join the democracy of New York in demanding the repeal of the Sherman silver coinage act. We condemn the act as an attempt to distract the friends of honest bimetalism and announce it as calculated to debase our currency, contract the circulating medium and wreck the confidence and safety of the business world.

UNNATURAL LOVE.

Miss Emma Fox Takes Her Life For Love.

ALTOONA, Pa., April 1.—Miss Emma Fox shot and killed herself here Wednesday night because Miss Bridie Boate, with whom she had fallen in love, refused to return her affections. The young women are both of good parentage and well to do. Almost a year ago Miss Fox began to show an unnatural affection for Miss Boate. The latter returned the love and had lately tried to avoid her. Finally Miss Fox's attentions became such that Miss Boate became frightened and never left her home unattended. This worried Miss Fox, and ultimately led to her taking her own life.

Lively at Creede.

CREEDE, Cal., April 1.—Today a de facto government of determined men will take the affairs of Creede in hand and endeavor to control the lawlessness. The murder yesterday and prompt verdict have encouraged the lawbreakers to expect when the officials take charge. The tough men of the town are on a drunk and a general row may be looked for.

Eager to Fight.

LONDON, April 1.—Pritchard, the well known English pugilist, is after Charles Mitchell. He has issued a challenge to him to fight for \$500 a side and a purse for the championship.

Did not Strike.

KANSAS CITY, April 1.—There was no strike of telegraph operators of the St. Louis and San Francisco railroad today as threatened.

THE REVOLUTION IN VENEZUELA.

Advices are Contradictory and Uncertain.

NEW YORK, April 1.—The Herald this morning has Venezuela advices from official sources which say the revolutionists are reported to be in full flight on the road leading from Valencia. Gen. Crespo's forces are said to be completely disorganized and panic-stricken. Advices to the same effect from the insurgent side have a different story to tell. They are that these forces are being rapidly augmented both with men and arms, and that by the middle of April he will have a force of from 10,000 to 15,000 men who will begin the advance upon Caracas.

Another Point of View.

PANAMA, April 1.—Today's advices from Venezuela represent that the revolutionary movement is not crushed and that the volunteers are flocking from all directions to the aid of the insurgents. Panama is almost universally unpopular. The insurgents are mostly of the intelligent class, the government forces being largely composed of hastily made levies. It is believed that the insurgents will thoroughly organize before making another advance.

As Heard at Washington.

WASHINGTON, April 1.—Advices to Senator Bolet Paraza, the Venezuelan minister, from President Palacios yesterday, state that "peace has been almost completely restored."

WILL FIGHT THE TRUST.

In Congress First and Then in the Markets.

PHILADELPHIA, April 1.—The opposition which develops among the wholesale grocers, sugar brokers and others in this city by the absorption by the sugar combination of the three sugar refineries of this city has crystallized into a movement to make a fight in congress against the trust. The first step will be introduced on a bill in the senate to prohibit the sale of a cent on refined sugar, which it is claimed, serves no other purpose now since there is a glut of the market. The bill is to control the prices absolutely, of both refined and raw sugar. An effort has been made to secure subscriptions to the well known methods of hostility employed by the trust to crush out rivals.

Will Remove the Collector.

ST. LOUIS, April 1.—A Washington special to the Globe Democrat says: Internal Revenue Collector Charles F. Wenneker, of St. Louis, has been investigated by the revenue department for removal is now in the hands of the President. Commissioner Mason, of the internal revenue department, has recommended the removal of Wenneker. The revenue department is levying assessments upon government employees for political purposes.

Journalistic Chugger.

NEW YORK, April 1.—Nugent Robinson, who has been identified with the success of Collier's Once A Week for many years has resigned the editorship of that paper to accept the position of literary director of the Astra Publishing company, a new concern recently incorporated with a capital of \$100,000. Mr. Robinson is one of the stockholders of the Astra company. Julius Chambers, who has been identified with journalism in New York for many years, succeeds Mr. Robinson as editor of Once A Week.

Was a Traitor.

LONDON, April 1.—The British war office is greatly agitated by the revelations in the case of Edward Holden, formerly of the royal engineers, who was arrested while endeavoring to ascertain the route to the defenses of Gibraltar. It is said that Holden had an agreement with the French war office to procure for them as far as possible the plans of all fortifications in the Mediterranean.

Will Take Part.

ROME, April 1.—The Italian government, it is reported officially, may conclude to take an official part in the Chicago World's fair, provided congress will vote to indemnify the families of the Italians lynched at New Orleans.

Judge Drake Dead.

WASHINGTON, April 1.—Charles D. Drake, ex-chief justice of the court on claims, was found dead in his bed this morning at his residence in this city. His death was entirely unexpected. Judge Drake was 81 years old.

Fire at Menominee.

MEMOINIE, Wis., March 31.—Knapp, Stout & Co.'s two planing mills and lumber yards at Cedar Falls burned last night. The loss is \$75,000.

DISCUSSING TERMINALS.

Two Conferences Held in This City Yesterday.

The railroad committee of the council met in Mayor d'Auteiron's office yesterday afternoon and discussed the petition of the Duluth, Mesaba & Northern road for a right-of-way into Duluth. It seemed to be the opinion of the committee that no privileges should be granted the company unless the most positive assurances could be given that all the ore docks and terminals of the road should be located on this side of the bay—especially as the city was about to give away the only strip she had left to dispose of. After a long conference, at which nothing was done, the committee adjourned to meet again today. The committee from the jobbers' union, together with the terminal committee, met A. B. Plough, president of the Union depot terminal committee, in the chamber of commerce yesterday morning. The subject of terminals was carefully gone over, and Mr. Costello presented the case of the jobbers in a very able manner. Mr. Long stated that the committee hoped within 10 days to state definitely what Mr. Plough's company intends to do in the way of terminal facilities.

Mr. Long, of the council committee, is opposed to granting the request of the Mesaba people for right to parallel the St. Paul & Duluth tracks. "They ask practically an exclusive right-of-way," he said, "and make no assurance that their road will have its terminus or ore docks here. We certainly do not wish to grant a right-of-way such as they ask to a road which intends to enter Duluth only by a stub track from Superior."

FROM WASHINGTON.

Mr. Morgan's Resolutions on Silver Are the General Topic for Discussion.

They Are Believed to be a Device for Securing a Free Debate.

Doings of Both Branches of Congress Today; Business Largely Routine.

WASHINGTON, April 1.—The resolution introduced by Senator Morgan in the senate yesterday, has caused considerable gossip. Since Senator Stewart gave notice that on next Monday he would call up his free coinage bill, it has become apparent that his motion to take up the measure would likely be defeated. It is shown that at least six senators who favor free silver would vote against taking the measure up for consideration Monday. In order to offset the almost certain defeat of Mr. Stewart's effort, Senator Morgan introduced his resolution, intending thereby to secure a full and free discussion of the silver question. There is a lurking suspicion that Senator Dolph's proposition, made yesterday afternoon, to consider the calendar for two whole days an attempt to postpone Senator Morgan's resolutions. It is not evident at present how Senator Morgan's resolutions can produce any result beyond a full discussion of the silver question. They provide for no legislation, and it is very doubtful if a motion to take up a free coinage bill in the senate can be passed. Yesterday afternoon Representative Blaine and Pierce came in the senate chamber and had quite a lengthy conference with Senators Fugh and Bates. The nature of their conversation could not be ascertained, but in view of Senator Morgan's resolutions it was conjectured to have a bearing on the coming silver discussion in the senate.

In the Senate.

In the senate today Mr. Morgan stated that he did not intend to call up his resolutions until Monday next. Thereupon routine business was resumed. Mr. Peffer, of Kansas, introduced another of his characteristic bills to authorize the secretary of the treasury to exchange treasury notes at par for all outstanding United States bonds.

Doings in the House.

In the house today Mr. Catchings, of Missouri, submitted a report from the committee on rules of Mr. Anderson's resolution to investigate the census office. Mr. Wilcox, of Connecticut, chairman of the committee, moved that the committee be charged with making this investigation as it had jurisdiction of the subject. Mr. Enloe thought that the census committee should have taken some steps in this matter before they had not done so he thought a special committee should be appointed for the purpose. He favored the resolution as reported.

On motion of Mr. McMillin the house went into committee of the whole on the tariff bill.

Deficiency Bill Reported.

The house committee on appropriations today reported the deficiency bill. The amount carried by the bill is \$62,630.

In the report on the measure explaining the bill is the full correspondence between the committee and the state and treasury departments and Professor Menendhall, of the coast survey, concerning the necessity of an appropriation to complete the preliminary survey of the boundary line between Alaska and British Columbia as defined by the treaty of March 30, 1867 with Russia.

The President Replies.

WASHINGTON, April 1.—It is understood that the President's reply to Lord Salisbury's note of March 26, was transmitted through Sir Julian Pauncefote late last night. Nothing has been made public by which any idea can be formed as to the character of this communication. It is said to be quite voluminous.

The Duchess Dead.

MADRID, April 1.—The Duchess of Patrasna has died. She leaves her great wealth to the Jesuits.

KENTUCKY COAL.

Governor Knott and General Hardin Tell of Its Many Advantages.

Coal facts, as expounded by Governor Knott and Attorney General Hardin, of Kentucky, were listened to by a large audience at the chamber of commerce last night. The governor laid bare the vast region of coal which is known to exist in the blue grass state, enlarging and dwelling upon the cheapness with which it can be mined, its superior coaling and manufacturing qualities. He told specially of the lands held by the Monarch Coal and Coke company which is so successfully seeking to dispose of some of its stock in this section. The governor stated that the stock had never been offered in any other place than Duluth and the only reason it was so offered was that the coal was good for manufacturing iron from our ores, and for the additional fact that the owners of the lands wanted outside aid in the development of their properties. General Hardin told the oft repeated, but ever welcome story of his ideas of Duluth's future and in his close he said: "One ton of ore manufactured here will support more than 1000 tons sent away. But you can't do it, gentlemen, without our coal, which is 200 miles nearer Duluth than where you get other coals from now." Several gentlemen subscribed for a large number of shares of coal stock at the close of the meeting and more will do so today before this evening when the governor and party leave for home.

THE RIVER TRAGEDY.

Eight People Drowned by the Burning of the Golden Rule.

CINCINNATI, April 1.—It is now known that there were eight people drowned by the burning of the steamer Golden Rule yesterday at the foot of Sycamore street. Miss Nellie Maloney, Frank T. Riley, second mate, Deckhands William Morrison and Matt Homer, and four unknown colored roustabouts. Mrs. Rev. Geo. Easton, of New Orleans, is missing. Nothing is left of the Golden Rule but a waterlogged sunken hull and a partially consumed wheel. The Memphis war boat is a skeleton of charred timbers and the steamer Fleetwood is slightly damaged. At first it was thought the fire started from the fire doors on the boiler deck, but it is pretty certain now that the fire started in the hold. The flames caught from the lanterns which the men used in the hold and spread rapidly. For this reason it is believed that at least four stovedores were caught in the place. As near as can be roughly estimated the boat had a passenger list of about 80, with a crew of perhaps 100 stovedores, cooks, etc. At the first cry of fire the passengers, many of whom were in the cabin made haste to run for their lives and almost all of them were saved. The only passenger known to be dead is Miss Nellie Maloney. She was a friend of Capt. Shinkles' family and had gone down to the boat to bid her friends good bye. Her death must have been fearful, as it is thought that her body was caught by the wheel of the steamer Hercules. As a shroud of her dress was found hanging to the wheel.

FATAL FIRE.

A Mother and Child Lose Their Lives at Wilkesbarre.

WILKESBARRE, Pa., April 1.—Fire started at 5 a. m. in the military store of the Misses McCarthy on South Main street and rapidly spread to Kipples' sporting goods store adjoining. Mrs. A. Easby, a sister of Mr. Kipples, who lived above the store, escaped but forgot her 5-year old daughter, who was asleep in her room. She rushed back, got the child and was returning when several pounds of powder exploded killing her and the child. The loss is about \$70,000, including three other small stores adjoining, which were gutted.

CASHIER COMMITS SUICIDE.

No Reason Known for the Act; His Accounts Correct.

KASSON, Minn., April 1.—Horace Anthony, assistant cashier of the First National bank of Kasson, committed suicide last night by shooting. No cause for the rash act can be assigned. His work was all straight and he was highly esteemed by a large circle of friends. He leaves a widowed mother, one brother and two sisters.

Mother of an Archbishop.

CHICAGO, April 1.—Mrs. Mary Riordan, mother of Archbishop Riordan, of San Francisco, and of Father F. J. Riordan, a prominent ecclesiastic of this city, died this morning at her residence on South Sangamon street. She had just reached her 82nd birthday.

Carpenters Strike.

SPRINGFIELD, Ohio, April 1.—Two hundred carpenters went out on a strike here today for an advance of 2 1/2 cents per hour and pay for an extra hour's work on Saturdays.

MESABA NOTES.

Scraps of Interest Regarding the Iron Range.

Work on the Mesaba road is already begun and a large force of men are grading the proposed line.

A mining company to be called the Big Miami will shortly be organized. It will be capitalized at \$3,000,000. Its incorporators will include a number of very prominent Ohio people.

There seems to have been some misapprehension regarding the registration of stocks. All stocks do not have to be registered with the secretary of the exchange. He is a registrar, not the only one. Companies who have already registered their stock with banks are not under any obligation to change. A meeting was held yesterday afternoon to discuss the matter of registration, and it was decided that the charge for registering the stock of a company should be \$150, regardless of the amount of its capital.

The listing committee finds matters are a little slow, but numerous companies have signified their intention to list and will do so soon.

The Mesaba Central Land and Exploration company has declared a dividend of 50 per cent. This is not a mining company but acquires lands and leases them. Its capital is but \$100,000.

John E. Merritt, of Duluth, has gone to the Biwabik to relieve Capt. J. G. Cohoe for a few days.

Capt. D. A. Ross has a diamond drill operating on section 29, 50-14. It was started on Tuesday.

Capt. Frank Cardis, an iron expert from the Menominee range, will take charge of the developments at the Shaw property.

Capt. William White, formerly with the Silver Island mine in the Thunder bay district, has been appointed superintendent of the Sheridan mine in 62-14.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.
April 1.—A storm which was central over Colorado yesterday has moved eastward and is now central over Nebraska with greatly increased vigor. The barometer registered a fall of .20 inches or one inch below the normal.

Snow is falling in the Northwest where there has been quite a fall in temperature, and rain over Kansas, Nebraska, Dakota, Wisconsin and Minnesota.

The storm will move westward, passing near this section. Rain may be expected, turning to snow tomorrow.

DULUTH, April 1.—Local forecast for Duluth until 8 a. m. April 2: Rain, slightly warmer today. Light snow and colder Saturday.
B. H. HANFORD, Observer.

WASHINGTON, March 31.—Forecast till 8 p. m. tomorrow: For Wisconsin: Rain, with severe local storms in Wisconsin, probably colder Saturday afternoon; high southeast coast.
For Minnesota: Rain, severe local storms in southern portions; colder Saturday; northeast gales.

A LESSON FOR ST. PAUL.

Some things that glitter are anything but gold as some Western cities have learned by bitter experience. St. Paul is taking an object lesson in matters of this kind. Some months ago it was announced that a branch of the great Walter A. Wood company was to be established in St. Paul, and ambitious newspapers and newspaper men literally tumbled over one another for exclusive terms concerning the matter. And then a committee of directors from the concern visited the West and made a triumphant "swing around the circle." They came to Duluth and were entertained, and thence to Superior, where the same program was gone through with, and numerous offers of lands and money were entered in the numerous note books. But the directors were not satisfied at the humble promises made at the head of the lakes, but went on down to St. Paul. Here an offer was received that was to their taste. Wealthy citizens in St. Paul conferred with the directors and the result was a mutual agreement, satisfactory to both parties to it.

The Walter A. Wood company agreed to establish a branch of their factory in the Saintly City and in return three-quarters of a million of good Western dollars were to be poured into the company's treasury. It would seem that the terms were generous enough to locate almost any plant, however large, and even the Wood people expressed themselves as satisfied. Perhaps they were at the time, but when they realized how readily their terms had been accepted they grieved that they had sold their branch so cheap and longed for greater things.

It was agreed that the company, out of the bonus given, should purchase a site. But this program was changed, and the company advertised for proposals for a site. St. Paul innocence was still in the ascendant, and offers were many. Locations were not only free, but a cash bonus of as high as \$25,000 was offered, with more than one piece of land. This brought matters to a climax, and the Wood company were compelled to show what they really intended. They rejected all bids, declared that the offers were none of them large enough, re-advertised for further offers. The whole city may satisfy them, but it is doubtful. When Western cities were competing for the honor of sustaining the failing fortunes of the Walter A. Wood company, Duluth was active in the contest. Duluthians, perhaps, were a little disappointed when the questionable prize went to St. Paul. They can realize now that the last smile is by far the best and that the most profitable victories, even in a material sense, may be defeats.

THE SERVANT GIRL QUESTION SOLVED.

Our esteemed contemporary the News, a few days since, labored and brought forth a wail of the "most perplexing question" of the hour to the effect that there was a lack of servant girls in Duluth, and proceeded to prove it, citing as evidence that the News' front columns were filled with servant girl advertisements, from various quarters, and concluded by soliciting housekeepers to give their experiences of the whys and wherefores on this subject, but up to date we have scanned the News in vain for the remedy. The Herald has solved the problem, and it is one no doubt well known to the housewives also but they were too modest to so write and tell our contemporary. The trouble is the want advertisements should have been in The Herald instead and they would have been flooded with bright and intelligent servants. The Herald knows of no case where a want ad run in its columns once or twice did not bring four to twelve inquiries, and in one case where the advertisement was thoughtlessly ordered in three times the small card went out on the morning of the third day to stem the tide so deluged and annoyed were they with applicants each carrying in their hand a copy of The Evening Herald, to show their good faith. Give us a harder one.

The Duluth council has now before it as serious a question as it has ever been called upon to consider. We are on the eve of great prosperity and the natural

tendency in everyone is to do all in his power to aid the coming prosperity. Railroads, which are essential to the prosperity of the city, are knocking at the gates, and the problem of their admission is one which must be solved. The question of railway terminals is one in every way worthy of the most serious and thoughtful consideration. Valuable rights should not be granted with careless haste in any case. They should not be granted in any case to corporations not worthy of assistance and capable of returning to the city any benefits which may be given them. The rights of the people as against all corporations should be guarded with watchful care. But at the same time no policy should be followed which will in the least discourage railroad improvement and development. The question is one with dangers on both sides, one hardly more serious than the other. A carefully-planned course must be followed, and care must be exercised, for the case is one in which failure would be almost fatal.

A Chinaman, with the assistance of a shrewd lawyer, will soon be recognized as an example of persistence, and what one can do has been illustrated in the case of half a dozen Celestials who recently arrived in Montreal from Vancouver, with their hearts set upon entering the United States. Recalling the fact that the present treaty between Great Britain and the United States provides that any British subject, whatever be his race, color, or creed, shall be admitted to the United States free of entry, and with rights of residence, the lawyers consulted by these Chinamen were advised to go before the superior court and become naturalized British subjects. Having done this they were told to take their papers and cross boldly over the border, which three of them straightway did. Their papers showed them to be British subjects, and there was no legal way of preventing them from continuing their journey. Now that this method of outwitting Uncle Sam has been successful, many sons of the "flowery kingdom" who are desirous of washing American linen will probably adopt it.

Mr. E. W. Taylor, of Salt Lake City, a prominent anti-Mormon, was interviewed in Chicago Monday. He had seen the report of President Eliot's address and thought him justified in saying what he did. He says that Salt Lake City is the least immoral town of its size in America. Neither Mormon nor Gentile allows the other to commit crime there with impunity. He declares that polygamy is no longer an issue in the territory. It is the determination to retain political control that makes the difficulty. In the cities the anti-Mormons are in the majority, but in the rural districts they outnumber the Gentiles two to one, hence in case Utah were granted a state government it would be controlled by the Mormons, and their practical union of church and state would, the Gentiles believe, make such a government mendurable for them.

A committee of both houses of congress has given a hearing to a body of delegates of Western labor organizations upon the immigration question. The delegates represented the most powerful unions of skilled mechanics in the United States. They made speeches of a very practical kind in favor of the better regulation of immigration, and they appealed to congress for legislation on the subject, asking especially for the adoption of the restrictive bill that has been introduced by Congressman Stone. There is no doubt that an overwhelming majority of American mechanics are desirous not that immigration shall be stopped, but that some proper bar shall be raised against the incoming of these undesirable aliens.

The Chicago Times is disgusted with the legislature of Iowa for starting a little side-show silver bill of their own. Although sympathizing entirely with the ends they propose, it points out the fact that their whole scheme is an attempt to impair the validity of contracts perfectly lawful in themselves. That paper thinks they might by possibility cheat their own citizens by such a law, but not the citizens of other states, who might bring their debtors to book in the national courts. The only gleam of satisfaction the Times shows over the whole job arises from the evident willingness of the legislature of a Western state to do something dishonest if they only know how.

The detectives of Chicago seem at least to have hit on a pretty cunning plan of overlooking the proceedings of the gang of city fathers, when dividing the plunder. They got access to the room above the business department of Alderman Johnny Power's saloon, and managed to have holes made through the papering on the ceiling through which they could have a view of the whole interior of the office and hear all the talk going on there. This evidence has not yet, we understand, been brought out before the grand jury.

The free silver men in congress are, and have been, afraid of a square fight, and from the first they have used all tricks and subterfuges which political ingenuity could suggest. Their proposition for an international money conference was but begging of the question at best. The president already has all the power needed to carry forward negotiations of this kind. The only way to crush free silver was to force it to an open and final fight.

The Chicago News states that at a recent legislative investigation of the Reading coal deal it was shown that the average profit of the retailer on each ton is about 47 cents. Advances on the price give the retailer no additional profit, the combine absorbing the entire

advantage. It further appears that prices are advanced by the combine, quite arbitrarily and with little reference to the cost of production.

The Chicago Times accuses the presiding officer of the Chicago city council of being drunk at their Monday night's meeting. If the account published in the Times is true, such was the fact. But even if he was sober we doubt whether a Chicago jury would give exorbitant damages against a paper for accusing a Chicago alderman of slight indiscretion.

No one in the Senate could have been more pleased at the defeat of the silver bill in the house than was David B. Hill. There can be only one regret that it did not pass the house. Had it done so that most adroit of political tricksters would have been driven from cover.

The worst charge made against Count Von Eulenberg, the new German chancellor is that he is an advocate of spelling reform. Even this will be forgiven him if he is successful in treating some of the disquieting spells of his erratic master.

As the pension investigation proceeds it becomes more and more evident that no whitewash will do justice to the case. Nothing can answer milder than chloride of lime.

Probably the worst powder that will ever be fired over the seaskin will be that of the insect brain.

BY THE WAY.

I noticed an evidence of the rapid growth of civilization yesterday when passing in front of Porter's music store on Superior street. A couple of Mr. Porter's piano movers were lifting an upright piano onto a truck and I caught the destination—Mesaba station! Further inquiry revealed the fact that it was destined for the new town of Merritt. Doesn't that stagger you? Four weeks ago the only music in Merritt was that produced by the drumming of partridges, the song of wild birds, and the rhythmic murmur of the pines. Four weeks old and now a piano is necessary for that progressive little junction city. They'll want a union depot there before long!

From toddling infancy to the second toddling period of our life—old age—the word "boys" seems to attach to the male gender and there are a number of "boys" in Duluth upon whose heads half a century of suns and a corresponding array of blizzards have beaten down, and they are just as young and kittenish as when they played hooky from the old red school house in the East 30 or 40 years ago. Everyone in Duluth knows Judge Carey and everyone likes him. The judge has a penchant for petro and is champion of Duluth, having recently defeated a number of contestants in a series of games. Passers-by the Masonic Temple block yesterday were a little surprised, however, to notice an addition to Judge Carey's window sign, making it read as follows:

A judgment for foreclosure against Fred H. Russell and wife, in favor of G. G. Hartley for \$1382.68, was docketed by the clerk of the court today.

The Howe Lumber company has nearly completed its cut of special bill stuff for the new ore dock at Two Harbors—about 1,500,000 feet in all.

Andrew Oleson, who was badly injured at one of the Mesaba mines, was brought to Duluth yesterday and is at St. Luke's hospital. He will recover.

T. J. Walsh has been appointed private secretary to Mayor Autremont. He will also succeed Victor Johnson as clerk of the board of fire commissioners.

All Lenten services at St. Paul's episcopal church are taking place this week as usual. The announcement that they were postponed was the result of an error.

A petition for the improvement of Mesaba road, signed by many citizens, settlers and the mining companies generally has been sent into the county commissioners.

A meeting of the members of the building trades unions will be held on Tuesday evening at Parsons hall. It is intended to form a trades council limited to building trades.

A building permit for a \$1000 frame school house has been issued to the Bethesda Norwegian Lutheran society. The designated site is on Seventh street between Ninth and Tenth avenues east.

A stage social will be given this evening at the Presbyterian church. It is to be novel in numerous ways. It is to be managed entirely by a number of the young men, and it is not an "April fool" social, some surprises are to be expected.

Rev. James E. Connelley, late assistant pastor of the church and having been appointed pastor of the missions of Crookston and East Grand Forks. Father Connelley left for his new missions on last Thursday afternoon. Rev. Patrick Hendrick succeeds Father Connelley as first assistant of the cathedral. OF COURSE.

Of course, those who are satisfied that the old philosophers and the old theologians "knew it all" are expected to attend Dr. Slade's lectures Sunday. Nor are those expected to attend who do not wish to receive any new ideas and who do not care to learn anything more. If a person is satisfied that, in point of wisdom, he is a second edition of Solomon and that his own notions are absolutely infallible, there is no use of his wasting his time and money to hear Dr. Slade.

But those who desire further information upon a subject which is today attracting more attention than the scientific and religious world than any other one that can be named, will endeavor to attend.

FOOLED THE DEPUTY

Prisoner Robert Little's Bold Break for Liberty and How Disastrously It Ended.

Knocked From the Side of a Passenger Train While Waiting to Jump.

Recaptured at Stowell; the Deputy's Rapid Piece of Log Work Tells.

Robert Little is the name of a New Duluth citizen who was lodged behind the bars of Sharpy's bastille this morning for a 30-day stay for drunkenness. The kind people of New Duluth were taken given him 30 years if they could for he is a "regular bad un."

Deputy Sheriff Provinski, of New Duluth, started for this city this morning with his prisoner, who soon asked permission to go into the closet at the rear of the passenger coach, and the deputy allowed him to go, taking the precaution to sit close to the door so that his prisoner might not rush out of the coach.

Fronton was passed, and Spirit Lake and west end junction were left behind when it dawned upon the deputy that his prisoner was putting in an unreasonably long time in the closet. As soon as the train stopped at West Duluth, Deputy Provinski opened the closet door and looked inside. No prisoner was there; the bird had flown, the open window at the side of the coach showing plainly the manner exit. With a yell which would do credit to a Conanche brave, the deputy leaped from the train and started on a run for Stowell station, at the blast furnace, where he thought his man would probably strike out for Wisconsin and freedom.

He was right in his conjectures, for soon his "bird" was sighted, limping painfully along and headed for the St. Paul & Duluth bridge. Just as he was about to put his foot on the platform, the deputy sheriff stepped from his place of concealment with the pleasant remark, "Hallo, Bob, I've got you again." And Little sank down on the platform in a picture of despair.

He was knocked from the train near the furniture factory track by a switch target which caught in his coat when he was hanging out of the window looking for a soft spot on which to alight. His coat and the prominent part of his trousers were demoralized by the sharp iron of the target, and his flesh was somewhat grazed. He rolled against the side of the cut and back against the rail just after the last coach had passed. His forehead is bruised, quite a little, and his escape from death is somewhat remarkable as the train was moving very swiftly. Little's picture of mud, rags and blood when he arrived at the jail and was delivered to the jailer who made him take an immediate bath.

Lake Water Charts.

Secretary Thompson, of the chamber of commerce, has received a chart showing the water fluctuations in Lake Michigan for the last 50 years. The observations were taken at Milwaukee and show that the highest level was in 1859 and the lowest in 1877, there being a difference of 5 1/2 feet. At this time the lake improvements had not been commenced, which refutes the theory that lake improvements are responsible for the present low water stage. In 1866 the water was low and in 1867 the improvement of the St. Clair flats canal was commenced. In 1871 it was completed and the water stood higher than in 1862.

Attorneys Line.

The banquet given last evening at the Spalding by the Duluth attorneys, in honor of Messrs Seymour and Redington, proved, as was expected, a very pleasant affair. It was decidedly informal and there were no set speeches, but every one had his say and very bright some of them were. Covers were laid at the dinner for 14 and those present were as follows: James K. Redington, S. L. Fraser, J. J. Skuse, W. N. Draper, F. R. Chew, J. A. Rogers, S. F. White, P. H. Seymour, Mayor d'Autremont, J. K. Persons, R. N. Marble, C. H. Cady.

The First Presidential Election Under Ballot Reform.

Topics of the Time, April Century. The fact that all the so-called "double" states, whose vote is decisive in the election, are to cast their ballots in absolute secrecy, free from all espionage and intimidation, is one of momentous importance. The first and inevitable effect will be to lessen enormously the part which money will play in the contest. Every state in which money has heretofore been used most freely, has adopted the new system. If votes be bought in those states hereafter, the purchasers cannot follow the men whom they have bought to the polls to see if they keep their bad bargain. The result will be the same in those states, as it has been everywhere else under similar conditions; namely, very few votes will be bought.

This is a novel phase of a presidential canvass and election which both political parties will do well to take into consideration in selecting their campaign managers for this year. If money is no longer to be the controlling factor in the election, will it be either expedient or wise to put a professional corruptionist in charge of the campaign of either party? On the contrary, will it not be the highest political wisdom to put men of character in charge of all the committees, national, state, district and other?

Will Burke Resign? Numerous jokes regarding the intention of certain aldermen to resign have originated with the great joker of the city hall, and the information seems to have been worked upon a confiding member of the News staff, whose faith in human nature seems boundless. The Herald is informed that the only change at all likely to take place is the resignation of City Clerk Burke to take the position of secretary and general manager of the branch factory of the Cox broom works at Hermantown. This last piece of news is as liable as those furnished the morning paper.

A Luncheon Rendezvous.

This term might be applied to Stevens line, located on the Wisconsin Central line, at the gateway to the vast forest region which extends North to Lake Superior, a distance of 200 miles without a break, on account of its vast lumber interests. The Wisconsin river to which the lumbermen have given the familiar and somewhat quaint title of "Old Wisconsin," not alone acts as a lumber feeder to the city by furnishing through its numerous tributaries an enormous thousands of acres of pine in the upper country, but it furnishes a water power that is second only to that of Neenah and Menasha, which cities are also located on the "Central." Millions of feet of lumber are cut every year, giving employment to hundreds of men. In addition to the lumber trade, it has numerous other manufactures; it is here where the large car shops of the Wisconsin Central line are located.

The weather.
 U. S. WEATHER BUREAU, DULUTH, MINN.,
 April 2.—The storm which was centered over
 the Great Lakes yesterday has moved and is now
 over Lake Superior, between Isle and Port
 Arthur. It has been accompanied by heavy
 rain and high winds in all sections.
 The latest amount of rain that fell yesterday
 was at Duluth, 1.5 inches, and Port Arthur,
 1.0 inch.
 The rain has now ceased, except along the
 lower lakes, but a blizzard of a mild type is now
 moving from the northwest. The temperature is
 wind blowing a gale and the temperature is
 at Duluth, 32°. At St. Vincent, 20° below zero
 at Winnipeg, 10° below zero.
 The temperature rose a few degrees here yesterday
 and the total amount of rainfall was .03 inch.
 Had it been in the shape of snow, it would have
 measured one foot.

DULUTH, April 2.—Local forecast for Duluth
 and St. Paul, April 2: Light rain, turning to
 snow; decidedly colder by Sunday morning;
 snow to northwest; calm; probably fair Sunday
 and colder.

interviewed upon the matter, possibly be-
 cause he fears the worst. At any rate
 the chance is there that he will encounter
 some strong opposition to a re-election,
 either from Governor Nelson, or should
 he fail, to an election then from ex-Gov-
 nor Merriam, who must not be over-
 looked, as he will be on hand.

The following endorsement of the
 democratic platform adopted at St. Paul
 by the St. Paul Globe will be heartily ac-
 cepted by the democrats of the state:
 "It meets squarely the great issue to be before
 the people in the coming campaign, which are
 the tariff, the currency and the candidate.
 It declares first for the abolition of protection,
 not by violence and in wanton disregard of west-
 ern interests, but gradually, by the help of intel-
 ligent legislation. It declares next for
 honest money made of gold and silver, every
 dollar in which shall be worth every other dol-
 lar, and denies the right or expediency of the
 government's attempting to create values by
 the state's delegation to further the finan-
 cial policy of Grover Cleveland, who is the foremost
 living exponent of the principles it advocates."

Maj. McKinley's refusal to be drawn
 into the republican presidential canvass
 is one of those things which justifies his
 reputation as a statesman and a politician.
 The major can afford to wait,
 one recognizes this fact better
 than the present governor of Ohio.

We shall never be able to get up a ar-
 till we destroy the ocean cables. There
 is not time nowadays to get into a bell-
 frame of mind before a cable dis-
 patch comes along to say that there
 is nothing, nothing, nothing. So it is with
 Chile and so it is with Great Britain.

Germany sees her opportunity for in-
 creasing her trade by suitable repre-
 sentation at the World's fair. The gov-
 ernment at Berlin is now considering the
 question of increasing its appropriation
 to a sum nearly equivalent to half a mil-
 lion dollars.

It remained for Philadelphia to clinch
 the fact that one way of preventing the
 hanging of a prisoner is to hang the jury.

A war about scankins in summer
 would be decidedly unfashionable even
 if there were no other objections.

BY THE WAY.
 There are quite a number of people in
 Duluth who, while he was alive, knew
 Gen. W. B. Hazen, the colonel of the
 Sixth United States infantry, and after-
 wards chief signal officer, and there are
 a few of those same people who have
 had the pleasure of meeting Maj. Bullin,
 the United States special agent who is
 now here finishing up his successful
 search for offenders against Uncle Sam's
 laws and trespassers on his timber
 domains. Nature has made several
 notable cases of "doublers," but the re-
 semblance between Gen. Hazen and
 Maj. Bullin previous to the time Gen.
 Hazen was up his residence in Wash-
 ington (where he became, abnormal-
 ly) is so striking that old friends of
 the general pause and look at the
 very much alive major and mentally ex-
 claim: "Can the dead live again?" The
 two gentlemen were close resemblances,
 even to the erect, soldierly carriage.
 Napoleon bearing the manner of wear-
 ing the hair and in every lineament of
 facial expression. Maj. Bullin has the
 advantage, however, in that he is not
 quite so stiff and formal as was the gen-
 eral, and he is a delightful conversational-
 ist in the bargain.

*Well! well! well!!! Proctor Knott
 has gone back to his Kentucky home
 after a sojourn in Duluth. He and his
 friends have formed some business
 connections here that will be beneficial
 to all concerned, but it makes one long
 to see the wonderful change that Father
 Time has brought about. The genial
 statesman has learned the exact position
 of Duluth; his eyes have been gladdened
 by seeing the "celestial word in print."
 He has actually made a friendly
 invasion of the territory where "it is cold
 enough for at least nine months in the
 year to freeze the snook-sack of a loco-
 motive," and while the governor is too
 loyal to "Old Kentucky" to say our cli-
 mate is the "most salubrious on God's
 green earth," yet he is honest enough to
 say the climate is very fine, and this, too,
 during the cold part of the year. Those
 "reining pine barrens" have given evi-
 dence of great wealth; the herds of Pie-
 gan driven buffaloes have given place to
 corn, lumber and cereals, and the dry
 bones of Homer which rattled uneasily
 in his coffin, if the governor is to be
 believed, have sunk to that easy rest
 which should obtain with all well regu-
 lated cadavers, at least of the defunct
 age of Homer's period.

Leading Men of the North-

A Surprising Agreement Upon a Sub-
 ject of Importance.

What Prominent People in This Sec-
 tion Have to Say.

Some unusual publications have been
 made within the past few days.

While they bore the mark of truth,
 they were so remarkable that some
 doubted. Yet investigation proves them
 true.

These statements relate to the won-
 derful discovery made by Prof. Phelps,
 of Dartmouth college. They come from
 men and women of the highest standing.
 They give the strongest testimony—
 disinterested.

In Milwaukee where Paine's celery
 compound has a larger sale than any
 other spring medicine, the following in-
 terviews were recently published and
 created a great many favorable com-
 ments:

Mr. Charles Willis, the popular tobac-
 conist, 411 Third street, in answer to the
 reporter's question, said:
 "When I commenced to use Paine's
 celery compound I was a living human
 wreck; my body was reeking with pain; I
 could not hear; I had asthma sixteen
 hours out of every twenty-four; and I had
 the severest headaches any human being
 ever suffered with. I had doctor after
 doctor, but all to no avail, and used
 every medicine that I heard of until my
 room looked like a drug store.
 "One day I got hold of some testimonials
 for Paine's celery compound. I
 studied them night after night until I
 came to the conclusion to try six bottles.
 I thank God that I did so, for it is the
 only thing that ever helped me. After I
 had taken two bottles the pain through
 my body left me. After I took three
 bottles my hearing came back. And
 now that I have taken ten bottles, I am,
 thank God, a well man."

Mr. F. L. Forward, of Seymour, Wis.,
 the well known jobber in hay and grain,
 met with a remarkable experience, which
 he describes as follows:
 "For fully five years I was troubled
 with dizziness and heavy
 blood in the head. During this time I
 tried nearly every remedy I could hear
 of and consulted several physicians, but
 none of them were able to help me. Per-
 mamently. My system seemed to crave
 something all the time, the nature of
 which I could not tell. I finally tried a
 discovery that has lately been favorably
 mentioned in my paper, and noticed the
 benefit from the first, and its good effects
 increased until my trouble entirely dis-
 appeared. This discovery was Paine's
 celery compound, and I shall say too much
 in favor of the compound."
 Undoubtedly there is no man better
 known throughout the northwest than
 Mr. Frank A. Davis, of Fairbault. Mr.
 Davis is city justice of Fairbault, and
 quartermaster of Michael Cook Post, G.
 A. S. We have copies of two letters
 written by him—the first in 1885, and the
 second in 1888. In his first letter he
 writes:
 "I had suffered terribly with rheu-
 matism and a complication of ailments had
 to bear. My condition was fearful—one
 leg turned up, and my body was in pain
 stomach, liver and kidneys very much
 performing their functions, nerves
 unstrung and greatly weakened by pain.
 I thought my days were numbered. I
 have now taken eight bottles of the com-
 pound, and my pains have left me. My
 liver and kidneys seem as strong as they
 ever were, and my leg is rapidly getting
 into its natural shape and strength."

A Strong Testimony.
 It was natural that some people were
 surprised at such a strong statement, and
 when it was published in this paper in
 1888, Mr. Davis received a letter asking
 if it was true. In reply he wrote the sec-
 ond letter, referred to above, from which
 we quote:
 "My health at the present time is bet-
 ter than it has been for twenty years,
 and Paine's celery compound is what
 did the job. From the date of my
 letter, in 1885, up to this time, I have
 had no more trouble from rheumatism
 or the other ailments I mentioned. I
 know of several cures of rheumatism
 that the compound has performed in this
 city, and it is very popular. It certainly
 is one of the greatest remedies I ever
 used, and I know that it is true. I
 believe I had not used it."
 The space of this article will not per-
 mit of our publishing all of the inter-
 views; but our correspondents found
 that the compound was strongly en-
 dorsed by Mr. A. L. Winslow, the well
 known piano tuner, of 223 Martin street,
 St. Paul; Mr. L. R. Cass, of Ithaca, Wis.;
 Dr. J. H. Hannford and others.
 Noyes Bros. & Cutler, St. Paul,
 whose immense trade extends all through
 the Northwest, were pleased to com-
 mend such a valuable recovery as
 Paine's celery compound. They said:
 "Of the thousands of remedial agents
 handled by us, not one has stood the test
 more satisfactorily than Paine's celery
 compound. So far as our knowledge
 as a brain and nerve food and system
 regulator. Our sales have been great,
 having ordered each week for some
 time, and we have just written the pro-
 prietors to double our weekly shipments
 until further orders from us. Our large
 sales on this article certainly indicate
 that it is a medicine of wonderful merit."
 Mr. J. F. Broderick, secretary and
 treasurer of the Ryan Drug Company,
 stated that their trade spoke in the high-
 est terms of the merits of this compound.
 J. C. Eiel, of the Lyman-Eliel Drug
 company, writes: "The sale of Paine's
 celery compound keeps on doubling up
 rapidly. Where it will end we do not
 know. This phenomenal sale certainly
 cannot continue unless the users of the
 medicine find it all that it is advertised
 to be."
 A large number of the principal phar-
 maceuticals in St. Paul, Minneapolis and
 Milwaukee were interviewed, all of
 whom spoke in warm terms of the com-
 pound, and without exception said that
 they had heard many kind words of
 praise from those who had used it.
 Physicians Use It.
 P. V. M. Pool, of Minneapolis, stated:
 "I am selling to a number of people in
 half-dozen lots. Am just packing a half-
 dozen bottles to send to a physician who
 has abandoned all hope of recovery.
 His family tell me that he is now walking
 around the house and will be out in a few
 days."
 A. I. Seiler, 828 East Seventh street,
 St. Paul, says: "I sell more of Paine's
 celery compound than all other prepara-
 tions of this class put together." George
 C. Davenport, 693 East Seventh street,
 the same city, says: "I am selling more
 of Paine's celery compound at present than
 any other two preparations that retail at

CITY BRIEFS.

Smoke Endion cigar. W. A. Foote & Co.

Spring opening of the Duluth Business University, Monday, April 4, 1892.

Robert Marshall, a plain drunk, paid a fine of \$10 and costs this morning.

Good first mortgages, "on or before," commercial paper, Clague & Prindle.

The record on bids was beaten last month. Duluth is certain to be a great city.

The Handford lecture at the Lyceum drew another large and well pleased audience.

During March there were issued 37 permits for buildings, the cost of which aggregated \$71.15.

Sutton's "Uncle Tom's Cabin," with a large company, will be produced at the Lyceum this evening.

Bids for the extension of the Duluth & Iron Range road to the Mesaba will be opened next Tuesday.

Wanted, a few loans from \$1000 to \$10,000 at special rates on improved real property. T. O. Hall, 207 Palladio.

Severin Halvorsen died very suddenly yesterday afternoon. Coroner Ecklund was called but decided that no inquest was necessary.

The following appointments on the Duluth & Iron Range road will go into effect today have been announced. Thomas Owens, superintendent; A. M. Smith, assistant superintendent.

The list of iron companies subscriptions, as given by A. M. Stearns, of the Ironon Land company, is a good one to cut out and paste in your hat. It means very much.

Building permits were issued this morning as follows: Mechanic's hotel, for repairs amounting to \$5000; to McLeod & Campbell, for five two-story frame buildings near Second street and Ninth avenue east, two to cost \$2000 each, two to cost \$1000 each, one to cost \$1500.

Repairs on the Ironon Baptist church have been so far completed that it will be occupied tomorrow. The Sunday school will meet at 12 o'clock. Rev. G. H. Kemp, the pastor, will return from his vacation early next week when the regular church services will be resumed.

Mesaba and Vermilion Lands.

We have listed with us, for sale, some of the best iron lands on the Mesaba and Vermilion ranges. Our list on the Mesaba is particularly fine. We can sell these properties on easy terms. Said properties can be placed in responsible companies organizing, and the owners will take in payment therefor part cash and balance on mortgage.

BEFORE THE JUDGE

Ensign Holding a Special Term Settling of Cases Today.

Several Actions are Finally Heard and Determined; Plaintiffs All Victorious.

A Burglar in Limbo; the Day's Round-up in the County Jail.

At a special term of court before Judge Ensign today the following cases were decided all of them for the plaintiff:

Theodore Grote vs. Henry Grote, Whitesides & Faine vs. A. M. Reitan; Scott & Holston vs. Ed. Ingalls et al., and O. W. Saunders vs. Michael Fink et al.

The case of state of Minnesota ex rel T. was referred to Judge L. Stone to take the evidence. The report of the assignee of E. O. Wohlin was received and filed.

Le Page vs. T. J. Ryan, on trial and will be followed by the arguments relating to the assessments for the purchase of lands for Chester park.

Court House Notes.

James Hodges was lodged in jail today on the charge of burglary. The iron Range depot at Tower, March 20. He is bound over to the grand jury in \$500 bail.

Articles of incorporation of the Northern Light Iron company were filed with the register.

The incorporators are A. C. Parsons and T. Scarlett, A. M. Cox, A. Michael and Simon Clark. The capital is \$200,000.

Amended articles of the Pilots association were also filed. The principal change in the latter is that owners are not eligible to membership.

Somes Anderson and Edward Dedrickson, of Norway, and E. O. Mellicur, of Canada, got their second papers, and Sof Engstrom, of Sweden, received first papers.

Peter Rasmussen and Mary T. Peterson were licensed to wed, and Jacob Bucholtz received a license also, his bride being Mary Folski, a 15-year-old maiden.

THE ICE GONE.

Navigation Naturally Opens Early This Morning.

It was 8:15, or to be exact, 8:12 this morning when the ice in the lake commenced moving away from the shore, and very slowly, but soon gathering headway, until at 12 o'clock the rear end of the ice was passing Knife Island, 10 miles away, at about a ten-mile-an-hour rate. It is so honeycombed and cracked that if the present wind holds out over night it will not return except as slush ice.

Marine News.

The new edition of the Inland Lloyds Vessel Register is now being distributed to subscribers. It will be interesting to know how many vessels appear in the new work with a building date of 1891, in order to see how much the fleet grew last year. Following is the list: Steamers, Atlanta, C. B. Bartlett, Edward Buckley, O. O. Conkerton, City of Glasgow, City of London, City of Paris, John Duncan, E. W. Fletcher, German, Griffin, Jesse Marina, J. D. Marshall, E. C. Pope, Preston, Pueblo, Roman, W. F. Sauber, F. Schlesinger, K. D. Thompson, Virginia; schooners, Harold, S. O. Neff, No. 55 S. O. Co., barges, J. J. Barlum, 109, 110, 111, 115, 116, 117, 118. This gives 23 propellers, 3 schooners and 5 barges, all, but one of the last being whalebacks. The united tonnage is 40,128 tons and the valuation \$3,850,000.

Preparation is now being made at the Whaleback shipyard for the building of the two line passenger vessels for the World's fair. Capt. McDougall's visit to New York decided that the people who visited the great international exposition shall see the far-famed whalebacks and be able to ride in them. During the winter following the World's fair the vessels will be fitted out with a great number of cabins for regular passenger service on the lakes.

The Eber Ward's big bass whistle sounded this morning's news and the tugs which were in steam replied with whistles in a shriller pitch.

The Superior ferries will probably commence running during next week.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
April 4.—A storm of considerable energy is
over Nebraska moving northwest. It has
been accompanied by heavy precipitation
which will continue over the upper Mississippi
valley. Snow is falling in Western Dakota and
Montana.

The heaviest rainfalls reported are 1.56 inches
at the Nelson, 1.24 at Lakewood and 2.21
at Huron, S. D.

The temperature has fallen over the extreme
Northwest, ranging from 15° to 20° in that
section, over the Ohio valley it is the highest,
ranging from 70° at Cairo to 62° at Cincinnati.
The storm will bring to the north and west
high easterly shifting to northwest winds and
colder followed tomorrow by clearing and
colder.

The highest temperature yesterday was 42°
falling during the night to 32°; high easterly
wind velocity was 32 miles per hour from the east.

THE TERMINAL QUESTION.

The people of Duluth are deeply in-
terested in the effort now being made by
the common council to provide right-of-
way into the city from the Duluth, Missabe
& Northern and the Duluth & Winni-
peg roads, and at the same time to ar-
range matters so that other roads which
may seek an entrance here in the future
may be granted equal facilities. This is
an undertaking which is of great impor-
tance to Duluth, because its commercial
future will result in a tremendous impetus
being given to our growth as a manufac-
turing and commercial center. It would
be little less than suicidal to permit the
Missabe & Northern road to seek termi-
nals elsewhere. It is controlled by Du-
luth men, all of whose interests are on
the Minnesota side of St. Louis bay, and
they are loyal to this city and anxious
to ready to make it the headquarters
of the road in fact as well as in name.
In addition, this road will penetrate the
greatest deposit of high grade iron ore
that exists in the world and will bring to
the head of the lake the raw material
which capital and enterprise will trans-
form into iron and steel in all their varied
forms.

It would be a calamity indeed should
Duluth not take full advantage of the
opportunities which are now offered. It
said that there is a tide in the affairs of
man which, taken at the flood, leads on
to fortune. This is as true of cities as it
is of individuals. Nature has favored
Duluth with many advantages, while it
has denied others. No city, any more
than any person, has reached greatness
and wealth by remaining inactive and
waiting for nature to perform the work
which she has intended for it. A city will
not grow and prosper unless its citizens
are alive to its interests and work energetically
to advance them. Duluth, therefore, must
make the most of the present opportu-
nity and thus lay broad and deep the
foundations of commercial and manufac-
turing greatness. There should be but
one aim and purpose at this time, and
that is to arrange matters so that the
Missabe & Northern can get to the very
heart of the city at the least possible ex-
pense. The provision of these facilities
means also the entrance of the Duluth &
Winnipeg, another Duluth road that is
now controlled by Duluth men, either
residents of this city or friendly to its
interests.

The question of providing a general
terminal system is, of course, very im-
portant, but at this stage in the city's
history it must stand aside temporarily
until the Missabe & Northern termi-
nals are provided. This is a
matter that cannot be delayed.
Any hesitancy now, any unfortunate con-
flict of interests, is likely to send the
terminus of the road to another state,
and Duluth cannot afford this to happen.
The Herald does not believe, however,
that any such danger is to be apprehended,
because public sentiment seems to have
been found strongly in favor of granting
anything in reason that it may be neces-
sary to grant in order to secure the loca-
tion of the ore docks, shops and offices of
this road in Duluth. The only probable
danger that must be guarded against at
this time is the attempt of the St. Paul
& Duluth management to make the peo-
ple believe that it will give an entrance
to all other roads on reasonable terms.
There is good reason to believe that the
St. Paul & Duluth and the Northern Pacific,
when they talk about providing a general ter-
minal system, are merely playing a
bold game of bluff. Every road will
guard its own interests at every point.
Railroads are not more generous or
more disinterested than are other cor-
porations. The St. Paul & Duluth and
the Northern Pacific are not exceptions
to the general rule, and it is absurd to
imagine for a moment that they are
willing to allow other roads to use their
valuable terminals and compete with
them for the business of this port, unless
they pay dearly for the privilege. The
St. Paul & Duluth is preparing to build
to the Mesaba range. Is it, then, reason-
able to expect that it will afford facilities
to a strong competitor in the

ore-carrying trade like the Missabe &
Northern? The idea is so absurd that it
is unworthy of serious consideration.

The common council therefore must
provide the facilities which the Missabe
& Northern requires, and it can do this
and at the same time make ample pro-
vision for other roads that will seek an
entrance in the future. The Missabe &
Northern people have shown a disposi-
tion to meet the wishes of the council in
this respect. They ask no exclusive
privileges, but merely a right-of-way, and
this they should be given as speedily as
the details can be arranged.

IRON AND STEEL WORKS.

The location of the York structural
steel plant in Duluth's young suburb,
Iron-ton, marks the beginning of a new
era in the city's history. It is the first
step, unless the recent opening of the
blast furnace at West Duluth be entitled
to the distinction, towards making Du-
luth the great iron and steel manufactur-
ing center of the country. Few people,
comparatively, have a proper apprecia-
tion of the vast importance attendant
upon the securing of this industry. The
structural steel plant will give employ-
ment to 500 men at its very inception,
while the intention is to increase the ca-
pacity so that 1500 men will ultimately
be given employment. There is no in-
dustrial in which labor is so well paid as
in iron and steel working, and thus a
large amount of money will be earned
by these men and expended here for the
support of themselves and their families.
The benefits which Duluth merchants
will derive from the establishment of
such an industry can therefore be seen
at a glance.

The York plant is the precursor of
many more establishments devoted to
the various forms of iron and steel man-
ufacture. Mr. York has in contemplation
the starting of a bridge works, and the
New York capitalists who are asso-
ciated with him are now proposing to in-
vest millions of dollars in similar enter-
prises. Other gentlemen are figuring on
blast furnaces and rolling mills, and a
tin plate factory is among the other
probabilities of the near future. In the
line of iron and steel manufactures,
therefore, Duluth bids fair to become an
important point at an early date.

A CURIOUS SPECTACLE.

The mad rush which attends the open-
ing of new territory to settlement is a
curious phase of human nature. In the
eyes of many men, the large Indian res-
ervations are delightful lands of wondrous
fertility and surpassing richness. The
fact that settlers are debarred from tak-
ing possession of or even entering these
coveted lands has evidently given them a
mythical value that arouses the high-
est expectations on the part of those who
are gazing with wistful eyes towards
"the promised land."

The country has not forgotten the wild
rush and grab for gratuitous real estate
that attended the opening of Oklahoma
and other new territories, nor is it un-
derstand that a small portion of this
greatly desired land, for which men
struggled and fought with bitterness
and desperation, as if a vast
fortune depended upon the result of their
contest, was really fit for settlement and
cultivation. Despite the experience of
the Oklahoma boomers, their disappoint-
ments and sufferings, the old story is to
be repeated, and today we see thousands
of men gathered around the Sisseton
reservation in South Dakota and the
Arapahoe and Cheyenne reservations in
Indian territory, waiting for the pres-
ident's permission to invade those reser-
vations, which their fancy has converted
into a land of unequalled attractiveness.
It is a strange spectacle, and a sad one,
when the bitter disappointment which
many will meet is taken into considera-
tion.

Several Eastern papers are wrangling
over the question, "Was Whitman a
great poet?" There are some people
who contend that he was not a poet of
any degree. If Walt had not written in
this style

"There was a young man of St. Paul
Who was afflicted with infinite gall"
those who sneer at Walt Whitman's
poetical ability would doubtless have gone
into raptures over his rhythmic measures.

Mr. Carnegie says that his wealth is
about \$35,000,000, as nearly as he can
figure it, and he proposes to spend most
of it before he dies. If Mr. Carnegie is
correct, his wealth is not so great as it
is often made to appear. Let him come to Duluth
and start another morning paper.

The Ortonville Headlight urges the
Democrats to nominate Adolph Bier-
man for the governorship. There is a
possibility that Adolph will object. He
will be state auditor for several years
more and will not be disposed to resign
that office for an uncertainty.

Senator Cullom, of Illinois, announces
that he will not compete with President
Harrison for the presidential nomina-
tion. This is very kind of the Illinois
statesman, and President Harrison will
be awfully relieved.

The fact that Pardridge, the Chicago
grain speculator, has made a million
which he is investing in real estate, will
cause many people to think that option
trading is not so bad and wicked as it
has been described.

Governor Flower, of New York, was
reported the other day to be seriously
ill, but it appears that he had only an
attack of indigestion. He had been only
just swallowed one of David B.
Hill's orders.

Ferdinand Ward, the young Napoleon
of finance, having served out his term,
has been released from Sing Sing, and
says he wants no more of Wall street.
The brokers will reciprocate this feeling.

Bland blames Tammany for the defeat
of the free silver bill. If he is correct,

Tammany is entitled to credit for one
good deed, and an act of this kind will
cover a multitude of past sins.

Stranger things have happened than
that Tammany may yet desert Hill. The
braves are getting very restive over the
enthusiasm for Cleveland among Demo-
crats outside of New York.

"Speaking of governors," says the
Minneapolis Journal, "what has become
of John T. Gibbs?" Before a search is
instituted, the Journal should explain
who John T. Gibbs is.

The destructive tornadoes in Nebraska
and Missouri show conclusively that
spring has actually arrived. Such me-
teorological phenomena never occur in the
winter season.

And now Idaho has entered into com-
petition with South Dakota as a divorce
headquarters. Poor Chicago is no longer
distinguished in the divorce business.

When a bank fails in China the officers
lose their heads. Perhaps a similar law
would have a good effect in this country.

Rhode Island may be little in size, but
it seems to be pretty big from a political
point of view at present.

David B. Hill found that Congressman
O'Farrell was loaded.

Winter will now admit that "every-
thing goes."

LITERARY NOTES.

Something of New Books and Maga-
zines.

The April Arena is rich in able,
thoughtful papers. Its table of contents
is as varied as it is inviting, as will be
noted from the following: "The Money
Question," by Hon. John Davis, M. C.;
"Voluntarism," by the Hon. Charles
Foster; "The Farmers' Alliance and
its Leaders," by Annie L. Diggs; "Pon-
tius Maximus," by W. D. McCrackan;
"How Uncle Nettaway Squashed the In-
dian," a Southern character sketch,
by Will Allen Dromgole; "Books of
the Day," Reviews by Kathie Solomon,
Schindler, Henry Austin, and the editor.

Although the most liberal and progres-
sive of all the great reviews, the Arena
is prospering in a manner which indi-
cates the trend of public thought and
proves that the people admire brave,
outspoken and earnest magicians.

Articles of political timeliness in the
April Forum are: A discussion of the
several phases of "The Crisis of the
Democratic Party," by the Hon. Wm. L.
Wilson, of West Virginia, who writes in
favor of "a campaign for a principle;" by
Frederic R. Condit, the leader of the
anti-Hill Democrats in New York, on the
revolt against Senator Hill; and by Max-
well Hale. Besides these, there is a thorough
review of the change in Iowa from a Re-
publican to a Democratic majority, by
John N. Irwin. There are two literary
articles of unusual value—one, an au-
tobiographical article about his own con-
ditions and methods, by the late Professor
Edward A. Freeman; and another on
"The Language of Plagues," by
Gilbert Hamerton. The Forum, New
York, 50 cents a copy, \$5 a year.

A notable feature of the April Maga-
zine of American History is an illustrated
article by the editor on "The History and
Educational Importance of the Walker
Collection of Art Treasures," in Balti-
more. It is the most informing sketch
about that celebrated gathering of art
masterpieces in painting and histor-
ical art objects from every age and
clime ever given to the public in one
chapter, and the very first attempt by
any writer to treat the theme in its many
sided and vast proportions as a whole.

The clever scholar, Col. Charles Le-
ggett, of the Lake Superior region, and
promises to be increasingly useful to all
concerned with the history of the region.
It changes from its issue of April 7, and
contemplates other improvements that will
add to its efficiency. Those who sub-
scribe now receive free its review is
issued pamphlet on "Lake Superior Iron
Ore Production for the Past Thirty-Six

illustrated article in the April Century.
Nothing could more vividly depict the
wrong way to do it than some of the
striking illustrations of this paper, while
the right way is also fully pictured and

described. In view of recent war possi-
bilities and the revived attention to naval
matters, the article by William Elliot

present interest. "Characteristics," by
Dr. Weir Mitchell; "Old Pap's Flaxen,"
by Hamlin Garland; and "The Nauti-
cal," by Rudyard Kipling and Watson
Balestier, are continued. The scenes in
"The Nautika" are quite as original
and striking as those which have ap-
peared in Mr. Kipling's own stories.
This number of the Century closes the
forty-third half-yearly volume. In the
May number, which will be a particularly
brilliant one, several new serials will be
begun.

"The Days of April,"
[Isabel Gordon, in Lippincott's.]
"The days of April" they are fair, so sweet,
Flushing with tender green the meadow ways,
Where June will dance with her gay, gladsome
feet.
To music of a thousand warblers' praise.

"The days of April" they are fair, so fair,
With green and gold the budding flowers,
Promises of days all radiant fresh and rare,
Mellowed by gentle dew and fleeting showers.

"The days of April" they are green, so green!
And maple buds grow brilliant in the sun,
But use glad April, years and years ago,
And fragile wind-flowers stood out one by one.

"The days of April" they are dear, so dear,
The vast sweet world, the world after cold,
Longing for sunny skies all blue and gold,
For birds to pipe, and blossoms to unfold.

"The days of April" they are bright and coy;
But use glad April, years and years ago,
And more of cheerful hope and love and joy
Than all the rest of the year can show.

A LESSON TO WOMEN.

THEIR ANNUAL REPORT.

The Library Board Will Submit Their Report to the City Council Tonight.

The Last Meeting of the Old Board Will Be Held This Evening.

The Showing an Excellent One-The Public Library a Great Success.

The annual report of the library board will go to the council at tonight's meeting, and the showing made is gratifying in the extreme. The library has been in existence now for just two years and has been circulating books for eighteen months. During that time the patronage has increased almost beyond belief. Some figures from the report of Miss Neff will be of interest to the general public. The library contains now a total of 872 volumes, of which 730 have been acquired by purchase and 142 by donation. There have been added during the past year 332 volumes. The total circulation of books for the year was 68,603. This can be best understood when stated in another way. These figures mean that every book in the library has been circulated more than 10 times. As illustrating the class of reading enjoyed by the patrons of the library the following classification of the circulation is given. There were taken out during the year 399 volumes on philosophy, religion, 403 sociology, 684 philosophy, 201 natural science, 158 art, 566 fine arts, 596 poetry, 348 drama, 288 fiction, 5109 essays, 640 humor, 811 travel, 2160 oratory, 73 biography, 2470 history, 2001 miscellaneous, 1110. The average monthly circulation was 5717, and the daily average 223. The greatest number for any one day of the year was 128, though this record was broken last autumn when 573 books were issued. The library has now 3775 regular patrons.

The use of the reading room has also increased greatly, but no exact figures can be given. The reading room has now nineteen daily and weekly papers and eight-weekly magazines and reviews. During the year 2465 of lines were collected. The board held a special meeting on Friday last week, and reports were made and will hold its next regular meeting tonight. The three members whose terms have expired are Mrs. Spencer, Mrs. O'Brien and Mr. Harber. It is probable that they will be reappointed, two of them at least. Mr. Spencer, who is president of the board, will also submit a report this evening, covering the work from his standpoint. He will also make recommendations for the coming year.

When the library was first opened there was much opposition to it, and to the wisdom of allowing the public access to the book shelves. The experience of the people who patronize the library is worthy of the trust reposed in them, for during that time only eleven books of a value less than five cents have been lost. It is not believed either that any of these have been deliberately stolen.

THE YORK PLANT.

The Official Announcement Made Regarding It. After many delays and false alarms, the official announcement is now made that the negotiations for securing the York steel plant for Duluth are concluded. A full and complete making of structural steel will be done as soon as the work can be started. The plant will be used for the production of steel, and the cost of production about 15 percent. The plant will have a minimum capacity of 100,000 tons of product per day and will employ 500 men. The ultimate capacity will be 300 tons. It is also the intention to add a bridge works as soon as possible.

WANTS \$25,000.

G. L. Wilkin Sues to Recover For a Lost Arm. G. L. Wilkin has been sued in the United States court to recover \$25,000 for personal damages. The suit is against the Duluth Transfer Railway company. The complaint alleges that on Dec. 11, 1891, the plaintiff was employed by the defendant company and was at work on a steam shovel. Through negligence of the company, but no fault of his own he had his right arm so badly crushed that it had afterwards to be amputated at the elbow. He places his damages at the sum of \$25,000 and seeks to recover that amount.

Henry Lee at the Lyceum.

The Omaha News says of this attraction: "A large audience greeted Henry Lee and his players at the Farnam street theater, where they presented the beautiful romantic drama, 'The Runaway Wife.' The audience alternately laughed and cried for two and one-half hours. There was a curtain call at the close of nearly every act. Henry Lee made a most favorable impression. His impersonation of Arthur Eastman, the blind artist, is superb. The supporting company is most excellent, and is headed by Miss Amelia Bingham. 'The Runaway Wife' will be given on Monday and Tuesday evening. On Wednesday evening Mr. Henry Lee will present 'The Bells,' made famous by Henry Irving. Matinee Wednesday afternoon.

The Council Meeting.

The council meeting tonight is not likely to prove a sensational one. There are some members of the library board whose terms have expired and whose successors may be named, but it is probable an agreement has been reached between the council committee the Mississippian and Northern which will probably result in the company securing the franchise they desire, but not at this evening's meeting. An executive session to discuss territorial matters in general is to be expected.

The Cook Lecture.

Joseph Cook, the well-known author and lecturer who is to appear in Duluth this evening, has lectured once in this city about two years ago, when he spoke before a very large and appreciative audience. His lecture tonight is spoken of in the East as one of his best, and it is now this season. It is "Leaders and Misleaders of Our Day," a title which is as suggestive as it is timely, and from it one can gather some idea of what the lecture will be about. It is worthy of note, in this era of chaos and confusion in Duluth, that while the Cook lecture two years ago filled a large audience room at \$1 a ticket, this evening's price will be

cut squarely in two. Fifty cents for such a treat as he will give will be cheap enough. At Pilgrim Congregational church.

Baptist Social Union.

The Baptist social union of Duluth will hold their annual meeting at Hotel Brighton on Tuesday evening, April 4, and not at the First Baptist church, as was advertised in Sunday's News. The speakers will be Rev. Dr. Hoyt, of Minneapolis, and Rev. W. H. Dutrick, of St. Paul. Mr. Dutrick's subject will be, "Church for Common People." The social hour will be from 8 till 9. Supper furnished at 9 o'clock by the proprietors of the Brighton at fifty cents a plate. Music will be furnished by a male quartet. All those interested in the Baptist growth in the city are cordially invited.

Board of Education.

The board of education held its regular meeting on Saturday evening. The business done was all of a routine nature. It was reported that two lots on the corner of Second street and First avenue east had been purchased for \$17,000. The action was approved. A resolution that Woodland was referred. Bills aggregating \$20,000 were audited and allowed.

Marine Notes.

The coarse freighter Oden steamed up on Saturday and anchored here while waiting for the tugboat to move the barge. The tugboat will be in the Transit line this season. Capt. Thomas Judge will pull the barge.

Capt. Dan McLeod, manager of the Inland Lloyd's vessel, register, will be here in about two weeks.

There are already 400,000 tons of coal piled on the docks at Buffalo and only about 175,000 tons of vessel capacity there to receive it.

A Live House.

Panton & Watson have opened a New York office at 415 Broadway and have put in charge Mr. Grocokov, who was one of St. Paul's buyers for eighteen years; he also buys for Woodard & Lathrop, of Washington, D. C., and William D. Stewart, of Minneapolis. This is a great advantage to them. No house in the Northwest can boast of constant trade from the Panton & Watson. They are always alert for the best interests of their customers. Their future success is unquestioned.

Several handsome dwellings will be commenced on Bay View Heights in a few days, and as soon as this beautiful suburb becomes better known it will no doubt be the most popular residence portion of the city.

A glance at the engineers' report this morning shows that the village spent, under the Martin administration, \$202,776.60 for public improvements and that \$183,650.21 is necessary to complete the work contracted for. This is a big showing for a city the size of West Duluth and speaks well for its public spirited citizens who petition for this work.

The Cable Line Extension From Bay View Heights to Central avenue will be completed by June 1. After that date cars will be run on the incline every half hour from 6 a. m. to 12 p. m. This change in the service will put Bay View Heights within ten minutes ride of the business center of West Duluth, and undoubtedly will result in a rapid growth on the hill.

A Lumberman's Rejuvenator. This term might be applied to Stevens Point, located on the Wisconsin Central line, at the gateway to the vast west region which extends North to Lake Superior, a distance of 200 miles without a break, on account of its vast lumber interests. The Wisconsin river to which the lumbermen have given the familiar and somewhat affectionate title of "Old Wisconsin," not alone acts as a lumber feeder to the city by furnishing through its numerous tributaries an outlet for thousands of acres of prime lumber, but it furnishes a water power that is second only to that of Neenah and Menasha, which cities are also located on the "Central." Millions of feet of lumber are cut every year, giving employment to hundreds of men. In addition to the lumber trade, it has many other manufactures; it is here where the large car shops of the Wisconsin Central lines are located.

FAVOR THE FRANCHISE

The Chamber of Commerce Approves of the Petition of the Red Lake Falls Road.

The Report of the Committee Favoring the Proposed Project is Adopted.

The Road Must Establish Ore Docks in Duluth and Build to the Mesaba.

Considerable important business presented itself for consideration at the chamber of commerce meeting held this morning, the last meeting before the departure of Secretary Thompson for the East. The most important matter considered was the request of the Duluth, Red Lake Falls road for a right-of-way privilege. The proposed ordinance granting the right asked by them was read and discussed, as was also the report of the special committee appointed to investigate the question. The report was as follows:

"In the opinion of the committee, the road promises to be one of the most important, if not the most important, roads entering the city. Its route is so planned as to reach both the lumber, mining and agricultural districts lying to the northwest of the city, but while there are other roads which run into the same territory, this one alone promises the immediate development for commercial and railway purposes of Minnesota Point, a matter which in the opinion of almost the entire city of Duluth is at this time of pre-eminent importance. This development also is to be made immediately, without even waiting for the building of the proposed bridge across the canal.

"We believe, however, that only the southern half of South street should be granted, as this will give a strip thirty-three feet wide, which is ample for the purpose of the road.

Conditions being different on St. Croix avenue, in the opinion of your committee the right-of-way should be limited to a double track in the center of said avenue.

"The offer to commence the work within forty-five days and to complete the same within six months is a guarantee of good faith. It would seem to your committee, however, that with the complicated conditions of titles on Minnesota point, it would be only fair to make the completion nine months later.

Stand of six for that portion of the work. Your committee recommends that work on the main line should be required to be commenced within six months and that it shall be finished to the Mesaba range within the eighteen months after the passage of the ordinance. It should further be stipulated that the road shall locate within the city of Duluth its ore docks, warehouses, shops, terminals and general offices and shall maintain them perpetually in a first-class condition.

It should be so amended that the other roads using the tracks should pay a proportion of the interest charged on a basis of 6 per cent, instead of 7 per cent as provided, and it should be made to include not only the tracks constructed upon or across the highways mentioned in the present ordinance, but to all tracks constructed by the Duluth, Red Lake Falls & Northern road within the present or future limits of the city of Duluth.

"In the opinion of your committee every possible aid to this road consistent with the rights of the city of Duluth and the city of Duluth is, in the opinion of your committee, should be given by the municipal authorities."

M. R. BALDWIN,
C. J. JOHNSON,
Of committee.

The report was generally approved and the secretary was instructed to send a copy of the report and the resolution approving it to the council.

A communication from the Farmers' Elevator line was to the effect that over the Northern Pacific line cars could be obtained for wheat shipment to Duluth Lake and Northern road within a mill company, while cars were furnished for shipment to Minneapolis regardless of the time of year.

A communication from the Boston chamber of commerce regarding discrimination in freight rates west was also referred for action.

The request of the G. A. R. post for a committee to assist in the Decoration day celebration was received and the following committee appointed: W. H. Graves, D. G. Cash and S. F. Johnson.

The session closed with the consideration of bills and other routine business. W. N. Severance presented his scheme for establishing a nail factory here and requested for assistance was referred to the committee on manufacturing.

WHEAT ON THE U-GRADE.

The Opening Here was Weak but a Steady Advance Followed.

Very active trading was done in the early hours of today's session of the Duluth board, the recorded trading in the forenoon amounting to 1,000,000 bushels.

The great bulk of the trading was done in May wheat which sold 1/4¢ down from Saturday's close at the opening today.

Duluth and Chicago prices ran along today about the same on May wheat, keeping very closely together.

The weak opening was due to discouraging cables, rains throughout the country and fine crop prospects. There was little demand for cash wheat, or the later futures. May changed hands in large lots and advanced steadily to the close on narrow fluctuations.

The close was at from 1/4¢ to 1/2¢ above Saturday's last quotations. Following were the closing prices: No. 1 hard—Cash, 79¢; April, 77 1/2¢; May, 81¢; June, 82¢; July, 83¢. No. 1 northern—Cash, 77 1/2¢; April, 75 1/2¢; May, 79¢; June, 80¢; July, 81¢. No. 2 northern—Cash, 71¢; No. 3, 61¢; rejected, 58¢. On track—No. 1 hard, 79 1/2¢; No. 1 northern, 78¢.

Car inspection for today—No. 1 hard wheat, 69; No. 1 northern, 57; No. 2 northern, 39; No. 3 spring, 13; rejected, 7; no grade, 14; oats, 1; flax, 7; total, 437.

Receipts—Wheat, 151,328; bus, 137; bus. Shipments—Wheat, 439 bus. Cars on track—Northern Pacific, 23; Great Northern, 563; Chicago, St. Paul, Minneapolis & Omaha, 17; St. Paul & Duluth, 85; total, 718; corresponding date last year, 119.

IT Doesn't cost much to keep dry when you can get a rain-defying Cape Macintosh for \$8.50 to \$10. We needn't tell you that serious results sometimes follow a saturating. It doesn't take long for a good thing to advertise itself, that's why there's such a demand for our imported Rain Coats from Welch, Margeson & Co., London.

FOR THE APRIL TERM.

The District Court for the April Term Convened by Judge Ensign This Morning.

Disposition of the Calendar on Informal Call—The Setting of Jury Cases.

The Regular Meeting of the County Commissioners—Only Routine Business Transacted.

The April term of the district court was convened by Judge Ensign at 10 o'clock and the grand jury at once summoned. Two of those who had been drawn failed to answer to their names and attachments were issued for them. The grand jury list has already been published. Of those summoned, only one, Charles Miller, was excused. Of those on the petit jury the only one released from serving was George H. Bellinger. This afternoon the grand jury was called before Judge Ensign, given the usual charge and sent out to begin its work. The session will probably be a short one, as the number of criminal cases to be investigated is very small, and among them nothing more serious than a charge of assault in the second degree. There may possibly be half a dozen criminal cases come to trial. Probably there will not be more than two or three.

An informal call of the calendar this morning showed the following division of cases: Continued, 1, 2, 3, 4, 5, 6, 13, 16, 18, 22, 23, 29, 30, 37, 38, 47, 48, 64, Court, 7, 8, 9, 10, 12, 14, 15, 19, 20, 21, 24, 27, 28, 32, 33, 34, 35, 36, 39, 40, 41, 43, 44, 49, 52, 56, 61, 63, 74, 76, 77, 78, 79, 80, 83, 85, 88, 89, 91, 93, 94, 95, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

The afternoon was devoted to the hearing of motions and similar business.

Court Notes. The hearing in the matter of the protest against the park assessment on north Chester creek was concluded yesterday and the case was submitted.

John Schmitz vs. Alexander Gilman is a suit begun today to recover \$210 for services rendered.

First citizenship papers were issued today to Patrick Walsh, John Donnelly, Andrew Peterson and Mary Anderson.

Mandates from the supreme court in the appealed cases of the Marine National bank vs. A. J. Whiteman and in the city of Duluth vs. the St. Paul & Duluth railroad. In both cases the decision of the lower court is reversed.

The Duluth, Red Lake Falls & Northern Railway company has begun proceedings in condemnation to secure the right-of-way along St. Louis avenue and Minnesota street.

"A Tin Wedding." Mr. and Mrs. William Miller celebrated their tin wedding last evening at 134 Lake avenue south. About thirty-five couples were entertained at supper, and the evening was closed with dancing. The occasion was a most enjoyable one. The host and hostess were the recipients of numerous handsome presents.

SPRING OVERCOATS

Rich and Seasonable!

A trifling reason for buying one of ours is that we are known for selling Fine Overcoats. It is true. We do sell the Finest Overcoats under the sun. The fact is back of the fame. It is not alone that they are fine in quality; that they are not all fine alike; that whether you look at one as low in price as you would get an Overcoat anywhere, or a medium price one, or the most luxurious, they are all and each so different from other Overcoats in style: it is no one of these. It is the total of good cloth, linings, shape, work that makes the cost so little for the luxurious and so little for those less so.

At every step you see why one is \$10, why another is \$20. You pick them easily enough.

Again our methods are generous. We believe in more ways than one to advertise our merchandise; not confining it entirely to newspapers. For instance: For every Boy's Suit we have for the boy a Handsome Pocket Knife. We have for every Man's Suit or Spring Overcoat of \$10 or over a Clook; or \$15 or over a Perfect Time-Keeping Watch.

CHINA RESENTS IT.

The Passage of the Extreme Chinese Exclusion Bill Will be Considered an Affront.

Diplomatic Relations Between This Country and China Will Probably Come to an End.

An Opponent of the Measure Says Chinamen are Actually Leaving the United States.

NEW YORK, April 6.—A Washington special to the Press says that it was stated last night that the Chinese minister had indicated to Senator Sherman of the foreign affairs committee, that if the extreme Chinese exclusion bill became a law, the government of China would sever all diplomatic relations with the United States. Senator Sherman refused to say anything upon the subject when questioned in regard to the report. Representative Hitt, who led the opposition to the bill in the house, said that he had received information pretty directly, though of course, not officially, that in case the bill became a law, diplomatic relations between China and this country would come to an end. He also said that there was reason to fear that the government of China, hearing of the passage of the bill by the house, would instruct its minister to ask for his passports without waiting for the action of the senate.

Representative Hitt contends that instead of Chinese flocking to this country by thousands, as has been reported, the Chinese were actually leaving the United States, 15,000 more Chinamen having departed from the country since 1888 than had arrived.

MAJ. WARNER ASSAULTED. The Ex-Commander-in-Chief of the G. A. R. Struck by a Rifleman.

KANSAS CITY, April 5.—Maj. William Warner, ex-congressman and ex-commander-in-chief of the Grand Army of the Republic, and possible candidate for the vice-presidency of the United States, was violently assaulted last evening on the streets. The major was walking past the junction with a party of friends talking about the election and made the remark that any man who would disfranchise a voter was as vile as man could be.

He had no sooner uttered the words than a young man named Griffin stepped up to him and struck him twice in the face with his clenched fist, almost knocking him down. The major's friends attempted to catch the young man, but he eluded them and ran down the street. The major's face was badly bruised and bleeding, but the injuries are not any serious.

HIS LIFE IN DANGER. The President of Venezuela in Fear of Assassination.

NEW YORK, April 6.—The Herald's Caracas, Venezuela, dispatch says that another plot against the life of President Palacios has been discovered, but prompt action on the part of the police has prevented its being carried out. It is said that the president is in constant fear of assassination and that every precaution is being taken to surround him with safeguards. The dispatch says that Gen. Crespo is constantly receiving accessions to his ranks, and that it is the opinion that, should a battle be fought between the government forces and the revolutionists, the latter would be victorious.

No One Will Mourn. NEW YORK, April 6.—A Louisiana, Ky., dispatch to the World says that "Captain" Hatfield, the notorious leader of the Hatfield gang, whose record of murders is probably second to none in this country, has come to grief. While engaged in a game of cards with some of his boon companions, the "captain," being a big winner, was accused of cheating. This brought on a row and brought out pistols. The firing was promiscuous, but the "captain" was finally "laid low" by two bullets in the heart.

Infidelity's Reward. ST. LOUIS, Mo., April 6.—About 11 o'clock last night Mrs. Katie Griffin, 26 years old, was shot and fatally wounded by her husband, Wm. F. Griffin, in a house of ill repute on Chestnut street.

Mrs. Griffin had left her home on Washington avenue early in the evening in response to a note to meet a man at the house mentioned. Her husband suspected her intention and followed her.

Two Bad Indians. GUTHRIE, O. T., April 6.—Officers yesterday arrested Frank White and Buffalo Black, two Ojibwa, charged with insurrection and inciting their people against the whites. For months the men have been preaching to the Ojibwa and Pawnee regarding the Messiah, the return of the dead Indians, the return of Buffalo and the wiping off the earth of the whites. As a result the Indians have become restless and insolent toward whites, making the situation in the territory dangerous for the pale faces.

An Unexpected Move. ST. LOUIS, April 6.—Since April 1 the Southern Express company has discharged about ninety express messengers for being members of the Messengers' Brotherhood. The move was entirely unexpected by the messengers, who thought all trouble between themselves and the company ended with the settlement of the January strike.

Arrested for Embezzlement. ST. LOUIS, April 6.—Detectives last night arrested Fred J. Bacon, 10 years old, on a telegram from Boston, Mass., where he is wanted on a charge of embezzlement of \$500, preferred by his employer, A. D. MacLachlan, publisher, at No. 214 Clarendon street.

A Fatal Collision. MILWAUKEE, Wis., April 6.—A collision occurred on the Chicago & Northwestern near Waukegan, five miles west of Waukegan, at 7 o'clock last night. The Madison express collided with a West bound freight. Four persons were killed.

HE MEANT WHAT HE SAID.

Whiteley Reid Says Mr. Blaine is Not a Candidate. WASHINGTON, April 6.—In an interview upon general politics Minister Whiteley Reid was asked: "Will Mr. Harrison be re-nominated?" He replied: "I can see no reason, if he wants it, why he should not be re-nominated. His administration has been a clean one and acceptable to the people, and with Mr. Blaine out of the way I think there will be no little opposition. He is not a candidate. I believe every word he said in his letter. He meant what he said. He has told me on more than one occasion that there had never been but one time that he really wanted to be president. That was in 1876. Afterward, discussing the matter with me he said he had seen more of the life of a president; had seen by his side, and was impressed with the idea that the presidency was not all that it might seem to the uninitiated. He said: 'How do you find Mr. Blaine?' 'Well, he is two years older since I saw him last, but I find him the same bright, genial companion that he always was. It is even more companionable than ever.'"

THE RED LAKE FALLS ROAD.

Mr. S. D. Allen Replies to Some Criticisms on the Ordinance.

To The Editor of The Herald:—Believing that your editorial in reference to the Duluth, Red Lake Falls and Duluth road is calculated to stir up opposition to a railway to be built for the purpose of connecting the city of Duluth with the city of Red Lake Falls, I am writing you to inform you that the common council of the city of Duluth has no intention of building a road to Red Lake Falls. The road is to be built by the Duluth & Red Lake Falls Road Co., of which the city of Duluth is a stockholder. The road is to be built for the purpose of connecting the city of Duluth with the city of Red Lake Falls, and for the purpose of connecting the city of Duluth with the city of Red Lake Falls. The road is to be built for the purpose of connecting the city of Duluth with the city of Red Lake Falls, and for the purpose of connecting the city of Duluth with the city of Red Lake Falls.

BURNED TO THE GROUND.

A Fire at West St. Paul Caused a Loss of \$100,000. ST. PAUL, April 6.—At 10:30 this morning an explosion occurred in the basement of the St. Paul White Lead & Oil company's building located on the levee in West St. Paul. The building was soon in flames and in an hour was a total loss, the walls having fallen in. The stock was valued at \$200,000, machinery at \$15,000 and building at \$30,000. The insurance on the whole was only \$140,000.

SEVEN WERE CREMATED.

Fatal Results of a Fire at Fort Madison, Iowa. FORT MADISON, Iowa, April 6.—At 11:15 last night the 2-story frame building of S. V. Kitchen was discovered to be on fire, and it, with the dwelling of John Knuck, was entirely consumed. S. V. Kitchen, his wife, three children, his wife's sister, Miss Sidney Day and August Kneemeyer, a boarder, were killed. The bodies of the seven victims were found in the ruins of the building.

A Notable Death.

WILMINGTON, Del., April 6.—Willard Saulsbury, aged 72 years, chancellor of the state of Delaware and ex-United States senator, died suddenly at Dover this morning of heart failure. He was appointed chancellor in 1873 and was the seventh state he had held. He was in the senate from 1859 to 1871. He was always a Democrat and was a delegate to the convention which nominated Buchanan for president.

For the World's Fair.

ALBANY, April 6.—The World's fair bill would become a law tonight at midnight without the governor's signature, but he will sign it this afternoon at 4 o'clock and file a memorandum with it, endorsing its provisions and saying that it provides sufficient money for all purposes. The bill appropriates \$300,000.

A Democratic Victory.

PEORIA, Ill., April 6.—Returns of the township election held here yesterday show that the Democrats have won a victory. Every man on the ticket was elected. It is now conceded that the Democratic election, which occurs two weeks hence, will be overwhelmingly Democratic.

A True American Girl.

CINCINNATI, April 6.—Miss Bettie Fleischman, daughter of the millionaire yeast manufacturer, Chas. Fleischman, of this city, has broken her engagement with Count Logothetti because he refuses to become an American citizen.

Killed by Negroes.

ALEXANDRIA, La., April 6.—Capt. Patrick Kelly, aged 55 years, engaged in peddling, was killed on Sunday last by a gang of negroes near Fishville by a gang of eight negroes. Four of the negroes were caught and hanged. The killing was for the purpose of robbery.

Six Were Drowned.

LOUISVILLE, Ky., April 6.—At lock No. 6 on the Kentucky river, a raft is reported to have gone to pieces yesterday and six raftsmen drowned.

Boat Club Annual.

The annual meeting of the Duluth Boat club was held at the Spaulding last evening. The reports showed the financial condition of the club to be all right. It has \$480 in the treasury, assets of \$800, and liabilities to the amount of \$320. The number of members is 160. The election of officers resulted in the choice of the following: President, T. W. Hoopes; vice president, Walter Ayers; second vice president, Henry Cars; treasurer, T. H. White; secretary, W. P. Lardner; captain, C. J. Kershaw; lieutenant, F. A. Lewis; ensign, Charles Leach; directors, Arthur McKinley, C. J. Hoopes and Ray T. Lewis. The question of reducing the entrance fee to \$25 was raised, but it was allowed to go over for consideration at a special meeting of the directors.

At the Assessor's Office.

Col. J. K. Shaw has appointed James A. Smith, ex-county auditor, as his chief clerk in the assessor's office. E. B. Paxton will probably be appointed as clerk in the same office.

A BOMB EXPLODED.

Another Dynamite Outrage Reported Today at the French Manufacturing City of Angers.

The Police Office Badly Shattered by a Bomb and Two Policemen Severely Injured.

Anarchists Wanted Revenge Because the Police Interfered With Their Campaign of Education.

PARIS, April 6.—Another dynamite outrage is reported today at Angers, a flourishing manufacturing city in the department of the Maine et Loire and about 100 miles from Paris. A bomb exploded outside of the police office and the building was badly shattered. Two policemen were severely injured, and all their companions were more or less shaken up.

The anarchists have been spreading their principles among the factory people of Angers, as in other manufacturing towns, and it is supposed that the action of the police in attempting to check this propaganda incited the anarchists to revenge.

SCALDED AND BRUISED.

Eight Men Injured by a Locomotive's Boiler Exploding. LONG ISLAND CITY, N. Y., April 6.—At 9:30 this morning the boiler of a locomotive, drawing a working-train out of this station, exploded and eight men were injured. The names of the victims are: Engineer Walker, Joseph Luby, John Luby, James Kline, Theo. Velore and three unknown. Walker, Luby, Luby and Kline are probably fatally injured. All the men were badly scalded and some of them were severely hurt. They were thrown in all directions from the flat car on which they were riding. The boiler of the locomotive exploded and the boiler was the cause of the explosion.

AN INCREASED MAJORITY.

Democrats Carry Milwaukee With Large Gains Over Two Years Ago. MILWAUKEE, April 6.—Milwaukee elects a Democratic mayor by 203 majority over 1891, and a Democratic city council. The Democrats elected a majority of the common council, and a majority of the city board of supervisors. The Republicans elected the present clerk of the municipal court.

The Latter Day Saints.

INDEPENDENCE, Mo., April 6.—The fortieth annual conference of the reorganized Church of Jesus of Latter Day Saints convened here this morning. Delegates from various foreign and domestic missions of the church, to the number of 1000, are present. Joseph Smith, the prophet and president of the church, is present and will preside over the conference. Revelations from the prophet are expected. The conference will last ten days.

Assaulted on a Train.

LONDON, April 6.—A young girl was assaulted in a railway compartment on a train near Raubon today by a man who was the only other occupant of the compartment. The girl finally escaped from her assailant and climbing along the foot board gained access to the next coach, where she was cared for. Meanwhile the man had leaped from the train and escaped.

Reached an Agreement.

WASHINGTON, April 6.—Secretary Blaine and the British minister had a conference with the President today on the Bering sea matter, and it is understood that an agreement was reached for a renewal of the modus vivendi, with the exception of a few preliminaries. What the particular point of difference in regard to the terms of the modus is, cannot be learned.

Wanted to Get Even.

WHITEWATER, Wis., April 6.—It is stated here that the Estery Harvest implement manufactory, the chief manufacturing concern of this place, is to remove to Minneapolis. Sept. 3, a total bonus of \$100,000 having, it is said, been offered the company. The Minneapolis people were actuated by a desire to get even with St. Paul, which city has secured the Walter A. Woods company.

A New Professor.

MINNEAPOLIS, April 6.—The state university board of regents has just confirmed the appointment of Professor Thomas G. Lee to the chair of history in the medical college. Professor Lee is a graduate of the university of Pennsylvania and has for several years been an instructor in Yale and Harvard. He comes highly recommended.

Little Rhody's Election.

PROVIDENCE, R. I., April 6.—The weather is fine and a large vote is being polled throughout the state. There is much excitement and a good deal of scratching. There will probably be no election by the people, but the Democrats will probably have a plurality in the state ticket. The Republicans will probably secure both houses.

President Ely Now.

BALTIMORE, Md., April 6.—Professor Richard T. Ely, of John Hopkins university, and director elect of the school of political science in the university of Wisconsin, has accepted the presidency of the Summer university at Bay View, Mich.

A Bad Blockade.

ABERDEEN, S. D., April 6.—The unparalleled storm of rain and snow which has raged here for three days has ceased and the sun is now shining brightly. The fall of snow is simply tremendous, and in consequence railroads are quite badly tied up. The blockade is the worst experienced in a long time.

An Insolent Murderer.

MELBOURNE, April 6.—The Deeming inquest was continued today, Deeming was insolent. A woman testified to having a quarrel in Deeming's house about the time of the murder. It was shown that Deeming had not any articles belonging to the dead woman.

A Frightful Tragedy.

BELFAST, April 6.—Allen Spiller, a gunmaker, killed his wife and children with a hammer and razor, today, and attempted suicide. He was insane from loss of employment and illness.

REVIVING THE CORPSE.

Senator Wolcott Talking in Favor of Free Silver. WASHINGTON, April 6.—At the close of the morning business in the senate today, Mr. Morgan called up his silver resolution and yielded the floor to Mr. Wolcott, of Colorado, who proceeded to address the senate on the subject.

The House.

WASHINGTON, April 6.—After some unimportant business the house went into committee of the whole on the free wool bill, an amicable agreement having been reached between Messrs. McMillin and Burrows for three-quarters of an hour's debate on each side. Mr. Burrows' motion to strike out the word "wool" was rejected. Mr. Otis, of Kansas, moved to strike out the first section, and spoke upon his motion.

CULLERTON WAS DEFEATED.

The Great Chicago Boss (Rebuked by the People's Vote). CHICAGO, April 6.—The Republicans made large gains in yesterday's municipal election, but not enough to entirely overcome the present Democratic majority in the city council. The present council is composed of forty-one Democrats and twenty-seven Republicans. The police returns from yesterday's election indicate that the next council will stand thirty-two Republicans, thirty-three Democrats and three independents.

One of the greatest surprises was the defeat of E. J. Cullerton, for many years a Democratic leader in the council and boss of his ward, by Frederick Rhode, Independent-Democrat. D. R. O'Brien, Democrat, the only one of the indicted aldermen to seek re-election, was defeated by a majority of 500. S. W. Roth, Independent-Democrat, who was instrumental in securing indictments for bribery against a number of his fellow members in the council, also failed of re-election by 1000 votes.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
April 6.—A storm of slight snow is central
north of Minnesota. Rain is falling in Min-
nesota. In other sections it is fair and pleasant.
Light rain has fallen at scattered places, the
heaviest being over the Northwest.
Temperature remains nearly stationary, rang-
ing from 50 to 55.

While the northern storm may reach this sec-
tion, it is not probable that it will, and that
fair weather will prevail.

DULUTH, April 6.—Forecast for Duluth
until 8 a. m. April 7: Fair; slightly warmer
till Thursday night.

LET IT BE RESCINDED.

What strange freak was it that in-
duced the aldermen on Monday night to
pass a resolution, instructing Harbor-
master Miller to work at Washington for
the expenditure of all the dredging ap-
propriation between Minnesota Point
and Grassy Point?

Surely the members of the council did
not give due consideration to this ques-
tion, or they would not have adopted
such a strange action. If Duluth is to
realize, in the development of the iron
and street industry, all the benefits that
it should derive from the wonderful dis-
coveries on the Mesaba iron range, the
bay and river must be dredged farther
west than Grassy Point. Why limit the
dredging to only a section of the waters
in front of the city? According to the
Herald's idea all the territory from Stony
Point to Fond du Lac is Duluth, and
whatever benefits one section of that
territory benefits the whole. It is time
that the people of the various portions of
what constitutes Duluth shook off this
unfortunate sectional feeling. In the
working of public improvements there
should be no thought of conflicting in-
terests between the East and West Ends,
because in reality their interests do not
conflict, but are similar.

We cannot locate steel works, blast
furnaces or rolling mills in the heart of
the city. We must go outside, and the
level land in the manufacturing suburbs
up the river will furnish the room that
we require for these purposes.
But manufacturing plants lo-
cated there must have shipping
facilities by water, as well as by rail.
Contracts have been made for the estab-
lishment of industries there, on the dis-
tinct understanding that a sufficient
amount of the dredging appropriation
would be expended there to provide
ample shipping facilities via the lake
route. Chairman Blanchard, of the
house rivers and harbors committee, has
promised that provision will be made
for the expenditure of part of the ap-
propriation for dredging west of Grassy
Point.

Is the council desirous of changing
this desirable arrangement? Are the
aldermen prepared to shoulder the re-
sponsibility of breaking up the deal for
the location of the York structural steel
plant at Ironpoint? The Herald cannot
believe that this is their desire, and yet
that would be the inevitable result if
the contents of Monday night's resolu-
tion were carried out. The dangerous
character of this resolution having now
been drawn to the attention of the alder-
men, The Herald feels sure that they
will quickly perceive the advisability of
rescinding it at their next meeting. It is a
pity that it was ever passed, but it is not
too late to retrieve the mistake.

REFORM IN NEW YORK.

Dr. Parkhurst's fight for reform in
New York appears to be meeting with
some success. On Sunday last, the peo-
ple of Gotham were astonished to find
all the saloons tightly closed, and the
thirsty denizens of the metropolis were
compelled to seek prohibition drinks to
moisten their parched throats. A dis-
patch gives the following reason for this
unusual state of affairs:

"The police issued an order Saturday
to all saloonkeepers that they must
shut up or stand the consequences. The
order so far as was strictly obeyed. This
was the result of the grand jury
presentment founded upon the charges
made by Dr. Parkhurst."

It is quite a victory for Dr. Parkhurst.
He has demonstrated two things: First,
that the saloons can be closed on Sun-
day; and, second, that when the police
issue an order to that effect it is strictly
obeyed. Heretofore the New York
police department has been insist-
ing that it was impossible
to prevent the sale of liquor
on Sunday, and that its orders were im-
potent unless followed by remarkable
vigilance on the part of the department.
For a time indeed the police officials
laughed at the reverend doctor and
maintained that there was no violation of
the law, but when he procured such con-
vincing evidence to the contrary and
laid it before the grand jury, the police
shifted their ground and pleaded in-
sufficient strength to enforce the laws. The
grand jury report caused a scare, with
the result reported on Sunday.

Dr. Parkhurst is doing a good work,
but he will be compelled to keep ever-
lastingly at it to secure complete suc-
cess. The arm of the law is controlled

upon the assessment of vice, and so long
as this is the case every effort at reform
will be retarded by this class who will
stop at nothing to maintain their hold
upon the city's government. When New
York shakes off the clutch of Tammany
upon its municipal government then re-
form may have a chance.

NO CROOKEDNESS FOUND.

The legislative wheat investigation
committee has completed its report to
the governor, and a very gratifying re-
port it is. It does sound queer, however,
when read in the light of the statements
made by the Alliance when the investi-
gation was instituted. Then it was that
Gen. Barrett, Gen. Jim Baker, Eric
Olson, Bill Erwin and several other de-
tectable third party shouters went
around the state shouting that the farm-
ers were being robbed by the elevator
companies; that these merciless corpora-
tions were stealing the wheat by the
carload, and that the grain men were
banded together to depress prices.

That was before the investigation was
begun.

It is different now, and the Alliance
shouters are glum. Bill Erwin walks
around St. Paul, muttering unutterable
things about the stupidity of the politi-
cal generals who assured him that they
could bring convincing proof of the truth
of these charges.

The committee reports that nothing
ever approaching crookedness was dis-
covered. There was nothing wrong
about the secret shipments from the Du-
luth elevators in 1886, and the committee
finds they were "amply warranted in law
and by existing facts." This disposal
of damaged wheat saved the reputa-
tion of Northwestern grain and this
was for the farmers' benefit. Neither
did the committee find anything to
be a great combine of grain buyers to
depress prices and down the farmers.
What evil exists in this respect is the re-
sult of speculators in the Chicago pit.
This is a great victory for the Duluth
grain dealers and elevator companies.
It has also effectually knocked out one
of the stock arguments of the Alliance
nondescripts.

CLEAN THE STREETS!

The recent storms followed by thaw-
ing spells have left the streets in a very
muddy and sloppy state. The results
that pedestrians have to wade through
slush and mud that in some places
reaches almost the tops of their shoes.
This is a disgraceful state of affairs
which should not be permitted to con-
tinue. The common council passed a
snow ordinance some time ago. Its en-
forcement devolves upon the police de-
partment.

Why does not Chief Horgan order its
enforcement? If he has been advised
by the city attorney that there is a doubt
as to its constitutionality, why not insti-
tute a test case at once and have the
matter settled? If the present ordinance
is invalid some other plan can be
tried that will be upheld by the courts.

As, however, similar ordinances to the
one enacted here have been upheld in
other states, there is good reason to be-
lieve the Minnesota courts would take
the same view of the question. Let us
at least have the matter tested.

Then there are the street crossings.
They are in a horrible state at present.
Why does not the board of public works
have them cleaned? It may cost a few
dollars, but what of that? Duluth is not
a small village, and village methods can
not be tolerated here. Strangers who
visit our city must be astonished to
witness the disgraceful condition of our
streets. Let the board of public works
wake up and do something. This is no
time in our city's history for a cheese-
paring policy. Clean the streets, and
keep them clean.

The Milwaukee Wisconsin is much
pleased with what it calls the low death
rate in that city last month, and con-
gratulates the people of Milwaukee be-
cause they "are enjoying quite good health
at present." The death rate which causes
the Wisconsin to exult is 18.36 per cent.
How much more reason, then, has Du-
luth to boast on this score, when it is
stated that the death rate in this city last
month was only 6.6 per cent! Duluth is
the healthiest city in the country.

The anti-Chinese bill, which has passed
the house and is now before the senate,
is an extreme measure that is tantu-
mount to a declaration of war. Today's
dispatches report that the Chinese min-
ister has intimated that if the bill becomes
a law China will sever diplomatic rela-
tions with this country. The bill is un-
doubtedly in violation of solemn treaties
between the two nations.

Governor Peck, of Wisconsin, does not
understand why the people of Milwa-
ukee object to potato-parings in their
drinking water. Being a Democrat, it is
not to be expected that the governor
should be an authority on pure drinking
water.

The Nelson and anti-Nelson boomers
are making lively times in the Repub-
lican party in Minnesota. Harmony is
getting so thick that it can be cut with
an axe.

These Muddy Days.
(Somerville Journal.)
These muddy days
Suburbans have to wander,
And on the brink
Faintly of and think
How to get over yonder.

The ladies lift
Their skirts with swift
And—sometimes—graceful motion;
They pick their way
Like sailors on the ocean.

They hop, and skip,
And slide, and slip,
And—when necessary—
There's no delight
In such a sight.

And so each man
Does not get—oh, shocking!—
Tired out to get—oh, shocking!—
Trip down the street
A glimpse of shapely stocking.

MORE BULLS AND BEARS

Trading on the Floor of the New Stock Exchange Was Uninterrupted This Morning.

Twelve Companies Listed Their Stock and the Market Already is an Active One.

The First Trade on the Floor Was Made in Keynote, the Superior Second.

After numerous and vexatious delays the stock exchange was formally opened this morning, and there is now a reliable means of exchange and a reliable set of quotations as a basis for dealing in iron stocks. If any one has imagined that the dullness in iron stocks was the result of a lack of interest, he would have been undeceived this morning, for the new exchange room was crowded when the call was made and for the greater part those present were in attendance for business and not amusement. Up to the meeting twelve companies have had applications accepted by the listing committee, and their names were on the blackboards as follows: Keynote, Cosmopolitan, Cincinnati, Clark, Keystone, Kanawha, Lake Superior, Mountain Iron, Minneapolis, Mesabi Mountain Iron, Shaw and Washington. Several other companies will list in the near future.

To begin at once. Work on the West End Cable Extension will be pushed. Work is to be begun at once upon the extension of the cable line from Bay View Heights to Central Avenue and the necessary piling will be put in at the earliest possible moment. Conditions render it important that the work be accomplished as soon as possible and no time will be wasted. The new cable line when completed will bring Bay View Heights within a few minutes' ride of the manufacturing center of West Duluth and will open up a residence, commercial and handsome suburban district. The improvements will be of great importance to the home owners of the district, and will be less fully appreciated by them. They may enjoy the full possible advantage of the improvements. The company has erected a number of houses which will be sold upon easy terms and small monthly payments.

The Cable Line Extension. From Bay View Heights to Central Avenue will be completed by June 1. After that date cars will run on the incline every half hour from 6 a. m. to 12 p. m. and every half hour from 12 p. m. to 6 p. m. The cars will be operated by the Cable Car Company, which has been organized for the purpose. The price was at once advanced to \$10.00 by sellers and trading stopped. The next trading was in Lake Superior, fifty shares of which sold at \$7.75. More was offered at the same price.

Sales were also made in Shaw on the call. One hundred shares were offered and sold at \$10.00 by Mr. Worden, of Worden & Smith. There was no trading in Kanawha. It was offered at 17 and 15 and bid. Minneapolis was offered at 16 and 15 and bid. Duluth was offered at 17 and 15 and bid. After the call a deal was made in Clark at 10. Biwabik and Mountain Iron had neither offering nor bids. The bids for stock were all in dollars and cents per share, so that the quotations were apparently from those made in percent. But it is believed that the method adopted will prove more satisfactory.

Amusements. Milton Nobles at the Temple. "The Runaway Wife." Milton Nobles and his play "From Sire to Son" are both well known here, and at the audience at the Temple last night Nobles is not a great actor, but both are pleasing and satisfied the audience. The play is a little more than a minute, and it is after the wild west order, but the comedy is natural, the story stirring and fairly well developed. The play is a whole much that will please a popular audience. The strength of the company is not materially changed since Nobles was here last year.

The Runaway Wife. "The Runaway Wife" was given its second production at the Temple last evening to an audience which was larger than on the first evening was still better. The work of Miss Bingham, the strength of the company, the success of the first evening was repeated and the company was twice called before the curtain. The work of Miss Bingham, the success of the first evening was repeated and the company was twice called before the curtain.

French Millinery. Pantan & Watson seem to have made up their minds to one thing and that is to make the styles, fashions, etc., in every department of their business. Their connections in the East have placed them in a position where they can secure the latest and choicest novelties as soon as they are brought out. In their millinery department they are particularly strong. They have a large stock of French millinery, and they are particularly strong in their connections in the East.

Children Cry for Pitcher's Castoria. Mary's Sorrow Gown. Mary Thompson, one of Duluth's bright girls, some time ago her mother said, "no new clothes this year, dear, hard times." Yet a new dress was made of her birthday presents. But all's not made that looks new, for this dress was a new-made one, dyed with Diamond Dyes. "Home-dyeing" is any work says Mrs. Thompson, "when Diamond Dyes are used."

Children Cry for Pitcher's Castoria. He Entertains a Large Audience at the Congregational Church. Pilgrim Congregational church was well filled last night when Rev. Mr. Noves introduced Rev. Joseph Cook to a Duluth audience. The subject of the lecture was "Leaders and Misleaders on Our Day," and while handled from the standpoint of an alarmist and pessimist for the lecture possessed both these qualities it proved a very interesting discourse extending over an hour and three-quarters. The speaker made a great many witty and pointed remarks, and made a number of others which fell on decidedly unsympathetic ears—for instance, when he attempted to impugn the purity of Archbishop Ireland's attitude toward the public schools. His lecture was divided into two parts, the first dealing with the attitude of politicians toward the colored people, and the last touching on the educational matters

of the nation. Of the darker skinned people he said, "they're here to stay, these black and brown and bronze people. You cannot show me a city in the tropics or within range of them, made great by the manual labor of the colored people. You think the magic of your flag will change everything, but has the magic of the British flag changed everything? You say that our flag has more magic than the British flag, but the British flag has kept slavery under it longer than your flag. On the whole, I don't tell you, in Gath and publish it not in Askelon, the British flag waves over laws that are carried out and executed." Their followed a brief and touching allusion to Henry W. Grady, and then the speaker said: "A rough orator, has said that the negroes in the South have raised almost everything there except Gehenna. May be that's so, but I am not satisfied when the government drafts these blacks into the army and then takes their lives and afterwards refuses them full, fair, and equal protection. I'm not a pessimist or alarmist, but I assure you that you have not seen the end of the Southern color question, and you say you love change your political and social problems."

The second part of the lecture was a brilliant tribute to the common school system of the country, but was rather weighted down by some palpable misstatements regarding the Roman Catholics. The reverend speaker closely resembles a lecturer in his manner of delivery and is somewhat similar to the striking. His gestures are decidedly novel and irregular, but none the less he received a great deal of merited applause and caused not a little laughter, and on the whole his hearers were well repaid for the time spent in listening to one of the greatest pulpits in America.

Notice to Bankers of the United States of America.

We learn by the bankers of this city that the Moller Safe & Lock Co. have an agent in this city who says the Cary Safe Co., Ltd., of Buffalo, N. Y., has no patent on their Screw Door Safe. It is false, and the truth is not in any man who says so. The Cary Safe was patented Jan. 21, 1880. Further, we do not infringe on patented Safes with steps and flanges with a cast iron plate on the inside of the door. Forty years ago a Safe was manufactured with steps and flanges and similar Safes of today have no improvements. Our Screw Door Safe is made with a strong thread to every plate, and for the same money we give double the hard-tempered steel of any other Safe companies in the world. The strength of this door is at the least 25,000 pounds to the square inch, while others are at the most 10,000 lbs. Further, Safes with steps and flanges, tongues and grooves, have been opened by placing dynamite on the joint of the door by the use of putty and exploding by a fulminating cap. A screw placed on the inside of a door is no better than the old style bolt, and I know it to be a fact as a master mechanic. Further, we will give a written guarantee to protect every bank using our Safes against all robbings.

We give below a cut which shows the thickness of the door and passage of the Safe, the only perfect Bank Safe in the world. Yours truly,

C. M. HORTON, Agent.

Important Addition. Pantan & Watson have secured the services of Mr. Atkinson who has for years had charge of the cloak and fur departments of Field, Mahler & Co., St. Paul. He takes full charge of both departments in the Glass Block and we predict he will give the ladies of Duluth and vicinity the handsomest and most select line of garments ever shown here, and at prices that will surprise you all.

TRADING IN STOCKS.

The Second Day of the Stock Exchange
Proved Even More Successful Than
the First.

Brokers Were Freer in their Offerings
and Bids More Trading Was
Done.

A Large and Interested Audience Witnessed
the Proceedings. The Opening and
Closing Prices.

The interest taken in the newly
opened stock exchange and the amount
of trading done yesterday was a sur-
prise even to those most interested in
the venture and most sanguine of its
success. The amount of trading yester-
day was greater than was expected and
demonstrated not only the fact that
there was an active demand for the
stocks listed but that prices were much
firmer than the contradictory reports of
the preceding week would seem to have
indicated. The books of the stock ex-
change show that about 1500 shares were
transferred yesterday and this is a re-
markable showing considering the fact
that the method of trading was new
to most of the members and that
there was a natural hesitancy on the part
of both buyer and seller. It was ex-
pected that there would be some trading,
but at the opening, with everything new,
it was feared that the tendency to hold
back would be greater than was the case.
In every way the opening day of the ex-
change was gratifying to those interested
and promises success for the future of
the exchange.

When the call was made by W. B.
Wells this morning there was a larger
attendance than yesterday, and the room
outside the railing was filled with the
interested audience. The opening was
more active and businesslike than the
first day and the brokers were freer in
their offerings and bids. Biwabik
opened with a 30-day buyer's option at
\$10, which found 100 takers. In
Comstock there was a deal at once and 20 shares changed
hands at \$15, while 20 shares of Key-
stone found a buyer at \$10. Kanawha
was offered at \$16.50 with \$15.25 bid
and 30-day buyer's option at \$20. Fifty
shares of Lake Superior were offered at
\$27.50 with no takers. Mesaba Minn-
nesota was offered at \$10 and Shaw at
\$14.75, with an offering of a 60-day
buyer's option at \$10.75.

The feature of today's market up to
the noon hour was the activity in Cin-
cinnati which was brisk at the opening
and continued in good demand through-
out the whole session. During the morning
927 shares changed hands in this stock
and the opening price was 100 shares
at \$3.25, and from that the price
was bid up to \$5.50 and there were
numerous transactions at that figure.
200 shares thirty days buyer's
option at \$6 were included among the
transfers. Other sales up to the noon
hour were: Biwabik, 15 shares at \$10,
buyers' option; Comstock, 20 shares
at \$16; buyers; Keystone, 20 shares
at \$10; Washington, 100 shares at \$12;
buyers. Other shares were dull.

The daily transfer of Mountain Iron
was 15 shares at \$15. Shares were made
in Biwabik, Cincinnati, Comstock, Iron
Mountain, Shaw and Washington.

On Change.
The Carnegie Iron company, capital
\$1,000,000, has been organized. The
officers are Robert Fitzgerald, Duluth,
president; T. McGarr, Albany, N. Y.,
vice-president; John R. Bell, Duluth,
secretary and treasurer, who with S. P.
Davidge, Williamsport, Pa., and Ed.
Doherty, Milwaukee, are the incorporators
of the company.

The Camden Iron company has in-
creased its capital stock to \$1,000,000.
D. T. Adams, of Mesaba, is at the St.
Louis. He is the manager for the Kan-
awha company and reports work as pro-
ceeding favorably with excellent re-
sults.

A. S. Chase, who returned yesterday
from the coast, was among the visitors at
the exchange this morning.

The directors of the exchange are con-
templating a little banquet at some time
in the near future, when the exchange
will entertain all the other commercial
organizations of the city.

The citizens of Grand Marais in par-
ticular and Cook county in general are
not very numerous but they are a
full of enthusiasm and determined to
have rail communication with some-
where, preferably Duluth, and it is un-
derstood that a party of six surveyors
will be put in the field to survey a route
between Grand Marais and a point of
junction with the Port Arthur, Duluth &
Western at or near the boundary. The
principal expense, if not the cost, is to
be borne by Milwaukee men who are
interested in the townsite and contiguous
property. What would be the shortest
line to the proposed junction point
passes through a region fairly well tim-
bered but rich in almost all the valuable
minerals: iron, silver, copper, tin and some gold.
Some fine samples of plumbago of very
fine quality have been brought in from
that section but the location of the find
has been kept secret.

A Handsome Structure.
Building permits have been issued to
J. F. Merriam for a brick and stone ter-
race on the east side of Fifth avenue
east in Portland division, three stories
high, having four apartments, to cost
\$20,000; to P. L. Peterson for a 2-story
building on Superior street, between
Fourteenth and Fifteenth avenues west,
cost \$2000; to C. E. Peterson for a 2-story
frame dwelling on Third street between
Twenty-eighth and Twenty-ninth ave-
nues west, cost \$1500; and to Andrew
Ruff, for a 2-story frame dwelling on
First street, between Eighth and Ninth
avenues east, cost \$1750.

AGAINST THE COUNCIL.

West Duluth Does not Favor "No
License."

The license business, or rather the
non-license, of the village still continues
to be the leading topic. The business
men, prohibitionists, and many good
church men, are directly against the
action of the councilmen who voted "no
license" and will join in petitioning the
council to grant license. Many men
who never visit saloons realize the ex-
tent of the damage that will be done to
our town by not licensing saloons and
condemn the action of the councilmen
in no gentle terms, and the president
has received many callers, from among
the ranks of those men, the past two
days, who urge upon him the necessity
of granting license. Many of these
men think it would be well to raise the
amount of license or to limit the num-
ber of saloons, but all agree that license
and Superior will reap big benefits if
the saloons are closed at this place.
McMinn on Bay View Heights.

Charles Viers is on the sick list.
Len Elston is back from Verdale.
Miss Kelley, who has been visiting
at this place, returned yesterday
to her home at Marquette.
Mr. and Mrs. C. B. Hurd, of Willow
River, are guests of Mr. and Mrs. M. L.
McMinn on Bay View Heights.

W. M. Holbrook, president of the Iron
National bank about to be started at this
place, came up from St. Paul yester-
day.

Surveyor Thomas and crew of West
Superior, are in the city and will locate
the water company here on the hill
for the water company.

A temporary sidewalk is being laid on
Fifth avenue west, giving people in that
neighborhood an opportunity to get out
without having to wear hip boots.
A gang of men under Street Commis-
sioner Miles, yesterday moved the ac-
cumulation of mud from the crossings in
the village. This is money well ex-
pended.

Mrs. R. D. Cogan returned yesterday
from a three weeks' visit with friends at
St. Paul.

W. J. Mason, of Fergus Falls, is the
guest of W. J. Holmes.

Capt. Browne and Lieutenant Wood
returned this morning from St. Paul and
report having passed a very satisfactory
examination as commissioned officers in
the National Guard, State of Minnesota.

Wanted—Good boy to do chores at
the West Duluth hotel restaurant.
The piles for the belt line depot and
car line at the Central avenue bridge,
were all driven in yesterday. The piles
are happy over the proposed improve-
ment in their time card, and the big ad-
vantage it will be to them in getting to
and from home.

Turn Verein Election.
At the regular meeting of the Duluth
Turn Verein held last evening the fol-
lowing officers were elected for the en-
suing year: President, P. S. Anneke;
vice-president, R. Krojanker; corres-
ponding secretary, J. G. Graham; finan-
cial secretary, G. Schmidt; treasurer, A.
Fitter; first turner, Fred Hase; sec-
ond turner, Henry Thorschuck; cus-
todian, G. Collatz; trustees, John Gonska,
Chas. Rakowski.

Cambridge the Favorite.
LONDON, April 7.—Betting for the uni-
versity boat race favors Cambridge. The
race will be a close one, but Cambridge
draw an immense crowd, the weather
being warm and the sun shining brightly.

Louis. He is the manager for the Kan-
awha company and reports work as pro-
ceeding favorably with excellent re-
sults.

Poisoned by Tea Cream.
NASHVILLE, Tenn., April 7.—About
fifty persons were poisoned by eating
tea cream this morning.
Two of the victims, John D. Hudson
and Miss Mattie Goodwin, have died,
and the others—H. C. Dyer, a farmer,
C. W. Russell and John Smith, mer-
chants, had a hard struggle for life. The
others are already recovered or are on
the road to recovery.

Notice to Bankers of the United States of America.

We learn by the bankers of this city that the Moser Safe & Lock Co. have a man in this
city who says the Cary Safe Co., Ltd., of Buffalo, N. Y., has no patent on their Screw Door
Safe. It is false, and the truth is the man who says so, is of no use
to the company he represents. The Cary Safe was patented
Jan. 21, 1880. Further, we do not infringe on patented Safes with steps and flanges with
a cast thread placed on the inside of the Safe and the inside of the door. Forty years ago
a Safe was manufactured with steps and flanges and similar Safes of today have no improve-
ments. Our Screw Door Safe is made with a strong thread to every plate, and for the same
reasons, described premises and real estate, and in consequence we will give a written
guarantee to protect every bank using our Safe against all royalties.

We give below a list of which shows the threads on the door and passage of the Safe, the
only perfect Bank Safe in the world.

IT WILL BOTHER YOU

If you try to figure out how our Spring Overcoat can be sold for the very low price we ask of you. Don't attempt it. What you can afford to sell them for is ours. It is just as easy to miss the mark by overvaluing as under-valuing. We're done neither, but we will tell you this about the price: It is such as you can afford to pay whatever your resources may be. We are not in the habit of making rash promises but we will venture to add that you'll be pleased neither here or in the hereafter if you don't.

Attend our Spring Overcoat Sale next Friday, Saturday and Monday, April 8, 9 and 11th, when we shall offer you four elegant lots at the following very low prices.

Lot 28 15-Spring Overcoats, Brown Melton, Silk faced, Regular prices, \$14. For this sale, \$9.

Lot 29 30-40 Spring Overcoats, Light Tan Cheviot, Full Suit Lined, Regular price, \$20. For this sale, \$15.

Lot 30 34-40 Spring Overcoats, New Shades, French Cassimere, Silk faced, Regular price, \$25. For this sale, \$12.

Lot 31 20-30 Spring Overcoats, Best Effects in Brown, Homespun, with patch pockets. A decidedly dressy garment for young men. A coat sold regularly at \$20. For this sale, \$14.

Our Spring Overcoats at \$12, \$8, \$9 and \$10, suitings as finely made or trimmed, it will be found to be excellent as far as wear and general appearance are concerned, with the fit equal to the high grades.

This Overcoat Sale commences FRIDAY MORNING, APRIL 8, at 8 a. m., and closes MONDAY EVENING, APRIL 11, 9:30 p. m.

We'll also have on sale SATURDAY, 100 Plain Men's Undershirts, 100 pairs of Socks, and 100 pairs of Ties, that regularly sell at \$1. Our price for Saturday only, 50c.

Our store will remain open until 9:30 Monday Evening to give all who wish an opportunity to attend the Overcoat Sale.

MARRIAGE NOTES.

Capt. H. E. Dired and Lew King, both of whom have been wintering in West Bay City, arrived yesterday and will respectively command the Innan tugs J. L. Williams and Record.

The Eber Ward is loading today at Gill's warehouse and will probably go under the spouts at elevator H this afternoon.

The steamer Portage, of the Union Transit line, is 17 days, 143 gross tons and rates \$2.50. The Avon, of the same line, is 153 tons, was built in 1877, and has about the same rating.

The steamer Barker, of the Smith-Free line, which leaves next week for Beaver Bay, Grand Marais, and other north shore points, will probably turn her wheel this evening. She is in excellent shape for the season's business and has been housed in forward and refurnished.

The well known tug Maud S is receiving her spring fit out and will be commanded by Capt. R. P. Coburn. Antonio Case will be chief engineer.

The Buffalo had a very slight mishap to her machinery yesterday which will keep her idle today.

Booth's steamers, the H. R. Dixon and the Hunter, will leave Manitowish the last of next week. The Dixon will endeavor to be the first to reach the lower lakes to reach Duluth.

Grain rates keep steady at 4 cents. Private letters from Sault Ste. Marie say that the ice in the river and Mud lake is very rotten and going fast.

C. H. Weed, the Cleveland vessel man, is at the Spalding today.

F. D. Underwood from Minneapolis, with the "Soo" line, is today taking in the sights of Duluth.

For sale, fifty large packing cases, M. S. BURROWS & CO.

THE DISTRICT COURT.

Four of the prisoners indicted by the Grand Jury are Arraigned This Morning.

The Regular Work of the April Term Proceeding Before Both of the Judges.

A Suit For \$5000 Brought Against the Chandler Iron Company in the United States Court.

Four of the prisoners indicted by the grand jury were arraigned before Judge Ensign and all were given one day to plead. The men and the charges against them are as follows: Jacob Schubert, grand larceny; Joseph Odges, burglary; Jas. Carley, assault; J. C. Hessian was appointed by the court as attorney for Barrett, J. H. Boyle for Odges and Carley will be defended by Phelps & Martin.

The grand jury made the customary visit of inspection this morning and expected to conclude their work at the session of this afternoon. Two more indictments are expected before they adjourn.

The regular work of the term has been going on before both judges. Before Judge Scarle, Norgren vs. Edison, which was on trial all day yesterday, was completed and given to the jury this afternoon. Before Judge Ensign the case on trial has been Tullock vs. Mendenhall, an action to recover \$1000 damages for labor performed on the original foundation at the site originally selected for the Hardy school. It will be completed today. In Scott vs. the St. Paul & Duluth Railway company the jury acting under instructions from the court returned a verdict for the defendant. It was a verdict for \$1000 damages for labor performed on the original foundation at the site originally selected for the Hardy school. It will be completed today. In Scott vs. the St. Paul & Duluth Railway company the jury acting under instructions from the court returned a verdict for the defendant. It was a verdict for \$1000 damages for labor performed on the original foundation at the site originally selected for the Hardy school. It will be completed today.

Court Notes.
A. C. Volk, summoned on the special venire as a juror, was excused from service.

Second papers were granted by Judge Ensign this morning to Julius Tuft. First papers have been taken out by Ole Knutson, Patrick McGowan, Hugh McKenzie, Lars Reinartson and Isaac Mikkola.

The Wisconsin Red Pressed Brick company has been sued against David Hood to recover \$200 for material furnished. The action is a lien case in which the New Duluth Land company is a co-defendant.

WANTS \$5000.
A Suit Against the Chandler Iron Company.

Andrew Bortz, administrator for Frank Bortz, deceased, has begun suit against the Chandler Iron company for the sum of \$5000. The complaint alleges that in November, 1891, the deceased was employed by the defendant company and was at work in shaft No. 3. Near where he was at work was an abandoned pit, seventy-five feet in depth, which was entirely unguarded. Through the negligence of the company a blast was fired near where the defendant was at work and as a result he was hurled into the pit and received fatal injuries. Claim is made for the full amount of damages allowed under the statute. John Jensen is the attorney for the plaintiff.

LAND OFFICE BUSINESS.
The March Report Makes a Big Total of Transactions.

The March report of business done at the United States land office in Duluth shows that the total amount of business done in the month of March was \$1,100,000. The following figures give some idea of the rush: Thirty-seven entries for the sale of public lands, covering 3404 90-100 acres, netted \$1,100,000. A declaratory statement, \$2; 378 homestead entries, covering 52,512 7-100 acres, brought in \$1,073,612; 2 final homesteads, covering 240 acres, amounted to \$12; the sale of 10 plots and proofs netted \$18,300, or total of \$5,103,872, exclusive of \$38,528 which was received as indemnity for surrenders on public lands. The indications are that the business for this month will be fully as large. While the land activity was pretty general the greater portion of the land taken up was along the present and projected lines of the Duluth & Iron Range road.

Senour's Floor Paint Is the best made; also have full line of paints, oils and glass.

May Proceed.
H. H. Phelps returned last evening from St. Paul, where he was attending supreme court in the interests of the Duluth & Iron Range road. The injunction suit against the village restraining the council from making the proposed improvements on Fourth avenue west, was dismissed by request of the plaintiffs and the council may now proceed with the work if they wish to.

AN ADVANCE OF ONE CENT.

What Rose on the Strength of Strong Foreign Markets.
Prices opened strong on the board of trade today, first sales of May No. 1 northern having been made. With an advance of 3/4c to 7/8c. The session was very active in the May futures, while track wheat and cash in store had little demand. The stronger opening was due to early reports of a better tone in foreign markets and reports of cold weather in the Northwest.

Later news was bearish. After the noon hour the trading in May was in large lots and the demand active on narrowly fluctuating prices. The market closed from 1/4c to 1/2c above yesterday. Following were the closing prices: No. 1 hard cash 80 1/2, April 79 1/2, May 82 1/2, June 83 1/2, July 84 1/2, August 85 1/2, September 86 1/2, October 87 1/2, November 88 1/2, December 89 1/2. On track: No. 1 hard 81 1/2, No. 2 northern 80 1/2, No. 3 northern 79 1/2.

Cars on track—Northern Pacific to Great Northern 225, Chicago, St. Paul, Milwaukee & Ohio 8, St. Paul & Duluth 30. Total 253.

Receipts—Wheat, 154,863 bushels. Shipments, none. Cars on track—Northern Pacific to Great Northern 225, Chicago, St. Paul, Milwaukee & Ohio 8, St. Paul & Duluth 30. Total 253.

Outside Markets.
Minneapolis—Wheat: April closed 77 1/2; May opened 76 1/2 and closed 77 1/2; July opened 78 1/2 and closed 79 1/2; September opened 76 1/2 and closed 76 1/2. On track: No. 1 hard 81 1/2; No. 1 northern, 80; No. 2 northern, 79 1/2.
